BIOMEDICAL WASTE MANAGEMENT (WASTE RECYCLING PLANT)

POST EVENT REPORT

24.12.2020

We have conducted the industrial visit to Waste Recycling plant related to biomedical waste management for students. 153 students joined the industrial visit of biomedical waste management along with faculty members. The following members visited the waste recycling plant in Achirapakkam Town Panchayat centre on 23.12.2020(Wednesday) from 9.30am to 12.30pm. The field visit was done to sensitize the future dentists and faculties about the various methods of waste segregation and recycling. On our visit the following members were explained about the various solid waste management disposals by technical expert, which included.

- Segregation of dry and wet waste from collecting point.
- Segregation of biodegradable and non-biodegradable waste.
- Segregation of wastes like egg shell, tea dust, citrus fruit skin in particular which hamper the composting naturally.
- Effective maintenance of natural composting with various organic manures was explained and demonstrated.
- Segregation of plastic Carrie bags, pet bottles by cutting with various machines and then using the same for recycling.
- The process of vermi composting was explained.
- Various organic leaves like keezhanelli was grown there using the natural organic manures. Its health benefits were explained

NOVEL APPRAISAL IN CEPHALOMETRIC TRACING-KIDS

15.03.2021

This visit was designed to train post graduate students pertaining to both Orthodontics and Oral surgery department. It was conducted on 10th, 11th and 12th March 2021. Basics of Orthodontic and surgical planning in management of patients with **Jaw bone discrepancy** was conducted.

The visit was helpful for the students as it involved elaborate sessions with practical, clinical tips and tricks in treatment planning. **Hands on training and digital planning of the various analysis for facial bone evaluation** was done. Both the staff and students participated in the event and had micro case discussions. It was a unique experience due to involvement of all faculty members from both the department from both the colleges. Interactive sessions between inter college postgraduates and staff members help in unbiased transfer of knowledge and creates an environment for mutual sharing of knowledge.

INNOVATIVE CLINICAL LEARNING FOR STUDENTS AT DOOR STEPS

POST EVENT REPORT

To promote the **clinical learning activities** during the difficult **COVID situation**, the Department of Public Health Dentistry, is organized Field Visit from January to December 2021, on weekdays to address the oral health needs of the population and for **learning purpose** regarding oral cancer. Third years and interns participated in this field visit for learning purposes.

They learnt

- **How to diagnosis and treatment planning in patients**
- **Oral hygiene index**
- **DMFT index**
- **OHI simplified**
- **CPITN index**
- **Tobacco cessation counseling**

The dental team visits the residents in their houses due to COVID situation and does screening for oral diseases. The doubts related to dental problem are clarified by the dental team using visual aids. The team also took survey to learn about **etiological factors of oral cancer**. This field visit helps to promote **clinical learning activities** and to identify the oral health needs of the population and refer them to peripheral centers or APDCH for further management.

Review output: Post assessment was done to individual students; the outcome was very satisfactory during their examination.

Respected Sir,

Kind Remarks from
HOD,
Jan - slots free
Feb - 1 Student
R

Sub: Requisition for clinical observer ship and peripheral training.

The following students are pursuing their second year MDS (Oral & Maxillofacial Surgery) course at Adhiparasakthi dental College and Hospital, Melmaruvathur. As a part of MDS curriculum, each post graduate student has to undergo oncology posting in Head and Neck Oncology division for a period of 2 months.

Here by I am tendering this letter seeking permission to allow the following post graduate students to be observer on rotation basis 1 month each in your esteemed institution for which I will be immensely thankful to you. I am attaching the list of PG students.

1. Dr.Sakthi. S
2. Dr.Thennarasu A.R.

For further communication we can be contacted at omfs@apdch.edu.in

RESEARCH CONSULTANTS

Research consultant has been appointed on 15th December 2021

Research Activities – Report

Dr.DhamodharanUmapathy, PhD joined as a Research Consultant in our institution on 15.12.2021. He is a renowned researcher with a vast experience in the field of clinical biology. He has several national and international publications in various indexed journals with a high impact factor to his credit. He is

S. Karthiga Kannan
PRINCIPAL
Prof.Dr.S.Karthiga Kannan, MDS.,
ADHIPARASAKTHI
 DENTAL COLLEGE & HOSPITAL
 Hospital Road, Melmaruvathur
 Cheyyur Taluk, Chengalpattu District
 Tamil Nadu - 603 319

actively involved in assisting our post graduate students and faculties in their research studies. He has taken many initiatives in applying for research grants and proposals. Apart from the above, he is actively involved in taking regular classes on biostatistics and research methodology. He also helps in troubleshooting with various study-based statistical tools and analyses towards students' dissertation as well as short studies. He has newly introduced molecular research works as a part of students' thesis with the facilities/instruments available at our research department. Further, as a part of our institutional research wing, he has taken steps to conduct various webinar/offline seminars to entertain our faculty members in delivering various national digital education systems such as SWAYAM-MOOCs, NPTEL, GIAN courses etc.

Few of his credentials at APDCH are highlighted below:

1. Successfully analyzed the raw data of Oral Pathology PG student's dissertation and also helped in drafting the results
2. Designed a couple of new interdisciplinary project proposals to the present PG students thesis, which are about to be initiated shortly. (Endodontics PG, Oral Pathology PG).
3. For an upcoming Paediatric international conference, he has assisted our students in getting prepared with the statistical analysis for their raw data collected.
4. He is duly contributing in framing an in-house Institutional Ethics Committee.
5. To his credit, he has published an original research article in the month of January 2022, in an international indexed journal of impact factor 4.31, from the "Department of Research"

Research Activities – Report (STATISTICIAN)

Mr. Mahesh Babu, Msc (Biostatistics) was appointed as a biostatistician in our institution on 20.12.2021. He takes lecture classes for First Year post graduate students on biostatistics and research methodology. He also helps in statistical part of studies carried out by faculties and students.

INDUSTRY VISITS

14/12/2021

From

Department of Public Health Dentistry,
Adhiparasakthi Dental College and Hospital,
Melmaruvathur.

Through

The Principal,
Adhiparasakthi Dental College and Hospital,
Melmaruvathur.

To

The Manager,
Sakthi Mineral Water (Maruvvoor Aqua packed drinking water),
Melmaruvathur.

Respected Sir/Madam

I hereby requesting your permission to arrange industrial visit for our students this month (Dec 2021.) at your water purification Plant. It will help the students to acquire practical knowledge of water purification processes. Our academic curriculum focuses on engaging students in practical experiences to observe the water purification plant .We believe that your expertise in this field will give our students a relevant knowledge transfer. Kindly grant us permission to visit your plant.

Thanking you

MARUVOOR AQUA

POST EVENT REPORT

31.12.2021

Adhiparasakthi Dental College and Hospital conducted a industrial visit to Maruvloor Aqua (water treatment plant) on 30/12/2021. Around 76 students joined the visit under the guidance of the faculty incharge of the water plant explained well about **the structure and working of the water purification plant** and offered us a visit to the concerned areas. Students got an excellent benefit by visiting the biggest water purification plant at melmaruvathur and understand about the purification methods. **Water treatment** is whereby the used water or raw water from the well is treated in process to make the water more acceptable for a desired end-used. The goal of water treatment is to remove existing contaminants in the water, or reduce the concentration of such contaminants so the water becomes fit for its desired end-used. The process involved in treating water is solids separation using physical process and chemical process. The raw water which is supplied to the water treatment plant comes from **Periyar River**. The raw water is first treated with chemical coagulant alum. The dose of alum varies depending upon the turbidity, color, temperature & pH of the water. Treated water is then subjected to violent agitation in a mixing chamber for a few minutes. This allows quick and rapid dissemination of alum throughout the bulk of the water followed by **flocculation, sedimentation, filtration, backwashing and disinfection**. After disinfection it is stored in the reservoir.

DEPARTMENT OF PROSTHODONTICS AND CROWN & BRIDGE

REPORT OF "LAB VISIT – VITALLIUM LAB" – 2021

13.12.2021

The department of prosthodontics and crown & bridge, Adhiparasakthi dental college and hospital organized a laboratory visit to Vitallium lab in Chennai chrompet.

The laboratory visit was aimed at providing a first-hand experience of work flow in a commercial dental laboratory and various quality checks and practices done in the lab for delivery and end product optimization.

The postgraduate students of prosthodontics department and conservative dentistry and endodontics department with staff members a total of 18 visited the Vitallium lab facility in chrompet, Chennai. The students interacted with various members of lab and visited the facilities of direct metal laser sintering (DMLS), Impression and cast scanners with designing software's and milling facilities for all ceramics and finishing and polishing stations.

The students had a fruitful session with one and one interaction with laboratory staffs regarding handling of materials and their quality control.

POST EVENT REPORT

13.02.2021

STEMONC Research and Development facility is a center of excellence focusing in Cell culture, Biotechnology, Bio informatics and advanced Dental research. Adhiparasakthi Dental College and Hospital signed an MOU with this research facility.

14 PG students and 5 faculty members from our college were invited to the research facility at SRM university campus, Kattangalathur and had a one-day program to give an **insight into the various research facilities available and the opportunities for young graduates to understand the advancements in biotechnology and cell cultures.**

We had the opportunity to enter the research lab and had a close interaction with staff members at STEMONC. Inter departmental collaboration and knowledge sharing from various specialty professionals opens up channels for newer dimensions of thought process and thereby innovative ideas into the field of research. Thus young minds can choose the path of biotechnological research in the field of dentistry and get accustomed to the latest trends of the research world. Faculty members and post graduate students were benefitted from the research facility visit. It was a realistic experience for the students and faculty members to see the latest research equipment up close.
