## CAREER GUIDANCE PROGRAM

### POST EVENT REPORT

A career guidance programme “**FUTURE IS TODAY, NOT TOMORROW**” was conducted by Prof. Dr. Thillainayagam, Department of endodontics on 22/09/2017 for the Final year BDS students and interns from 3.30 pm to 4.30 pm at Adhiparasakthi dental college and hospital in Platinum jubilee auditorium. Dr. Thillainayagam sir has trained the students for career guidance in adhiparasakthi dental college for many years.

Highlights of this program are as follows:

As fresh BDS graduates, it is important to know about a wide range of alternative career options that are available after BDS. You all know the famous quote – Knowing is half the battle won. Doing is the other half.

He addressed the different career options in detail later which included pharmacovigilance, clinical research, forensic odontology, hospital management, academics, clinic set up, working in corporates and hospital setups and many more.

He gave a special mention about Dental Product Design: dentists need to work with sophisticated dental products and equipment for dental surgeries. Now, when it comes to designing those products, BDS graduates can use their expertise and work with the product development team.
