Name of the event	: Sakthi OMFACE 2021
Date of the Event	: 24-09-2021
Organizing Department	: Oral and Maxillofacial Surgery
Location of Event	: Mini Conference Hall, APDCH
Time	: 12:00PM-1:00PM
Number of teachers attended	: 19
Topic	: Osteomyelitis- an overview
Guest Speaker	: Dr.Vikraman MDS

SUMMARY

The Sakthi OM FACE 2021 program was held on 24 September 2021 at APDCH for the Postgraduate students and teaching Staff.

The speaker for this program was Dr.Vikraman MDS Professor, Ragas Dental college, Chennai. Inauguration function began with the moola manthiram to the Almighty, Welcome address was given by the Principal Prof Dr.Karthigakannan. The speaker was introduced by Prof Dr. D Durairaj H.O.D Department of Oral and Maxillofacial Surgery.

The guest speaker highlighted the topics on guest lecture: Osteomyelitis- an overview. He highlighted on the optimal management of osteomyelitis which required a multidisciplinary team of surgeons. The usual goal of therapy is the eradication of the infection and restoration of function. Treatment of chronic osteomyelitis usually requires aggressive surgical debridement and prolonged antimicrobial therapy. Vote of Thanks given by Dr.M.James Antony Bhagat, Reader Department of OMFS. We thank our Correspondent Dr.T.Ramesh, M.D, for guidance and support for conducting the program successfully.

Location of Event	: Mini Conference Hall, APDCH
Time	: 9.30 AM – 3:30PM
Number of teachers attended	: 10
Topic	: "Clinical management of functional appliance"
Guest Speaker	: Dr. G.UmaRevathy , Dr.Balasubramaniam Madhan.

SUMMARY

The ARRO-C 2K21 program was conducted on 24th March 2021 by the Department of Orthodontics and Dentofacial Orthopaedics, in Adhiparasakthi Dental College. The program was conducted both on the online platform and physically.

The total number of registrations for the program was 288 out of which online registration was totally 268 and physical presence was 20. Registrations included staffs & post graduate students from AIIMS New Delhi, and also delegates from Lucknow , Maharashtra & Uttar Pradesh. Dr.Balasubramaniam Madhan, Professor, Department of Orthodontics and Dentofacial Orthopaedics , JIPMER, Pudhucherry, and Dr. G.Umarevathy, Professor, Department of Orthodontics and Dentofacial Orthopaedics, Sri Venkateshwara Dental College were the guest speakers.

Dr. G.Umarevathy gave a lecture on the topic "Clinical management of functional appliance" after which a live demonstration of bite registration was given. Dr.Balasubramaniam Madhan gave a lecture on "Bonding – examiners' perspective" after which a live demo on bonding was given. After lunch Dr.Balasubramaniam Madhan gave lecture on "Frictionless mechanics-what an Exam going PG must know? after which a live demonstration on fabrication of loops was given. The audience doubts were cleared and the program ended with vote of thanks. Overwhelming positive feedback was obtained from the participants.

Location of Event	: lecture hall IV, APDCH
Time	: 1.30 - 3.30pm
Number of teachers attended	: 15
Topic	: Role of Probiotics in management of Dental Caries
Guest Speaker	: Dr.Poorni S

SUMMARY

With the Blessings of Arul Thiru Amma and Thirumathi Amma we the Department of Conservative Dentistry and Endodontics conducted a Cons & Endo CDE Program titled "Role of Probiotics in management of Dental Caries " on feb24th 2021 through google Meet. The program was organized under the guidance of our honorable college correspondent Dr Ramesh.T and our college Principal Dr Vasanthakumari.

Professor and HOD Dr Hemasathya.B, Department of Conservative Dentistry and Endodontics introduced the first guest speaker Dr.Poorni S, Professor, Venkateshwara dental college, Chennai through Google meet platform.

The speaker presented on the topic as the oral cavity with a well-maintained balance of species and species interactions may be a potential source for health promoting probiotic bacteria. There is limited evidence supporting some uses of probiotics. Much more scientific knowledge is needed about probiotics, including their safety and appropriate use. Effects found from one species or strain of probiotics do not necessarily hold true for others, or even for different preparations of the same species or strain. The full potential of probiotics can be realized when their benefits can be established scientifically. The development and evaluation of oral symbiotic products, containing both prebiotics and a probiotic, would be of interest in the future management of dental caries.

POST EVENT REPORT

Name of the event	: Medical Records Auditing
Date of the Event	: 12-2-2021
Organizing Department	: IQAC
Location of Event	: APDCH lecture Hall 4
Time	: 1.00 pm to 3.00 pm
Number of persons attended	: 5
Topic	: Quality improvement of medical records through Internal auditing
Guest Speaker	: Dr Bharath MDS and MrParivel

SUMMARY

The systematic evaluation of the quality of medical records is crucial. The session was conducted by Dr Bharath and MrParivel to assess the efficacy of internal audit as a tool to improve the quality of medical records in hospital setting.

The audit training showed the methodology used and a sample of medical records to replicate the assessment. The speaker also invited non-teaching staffs to actively discuss the results, identify the weaknesses and define the cause of problem. Finally, a report of the meeting was recorded and a satisfaction questionnaire was administered to all the staffs.

It was a useful session in improving the quality of care provided by the non-teaching staffs across the organization. The benefits of undertaking internal audit are promotion of good practice, providing opportunities for training and education, better use of resources and increase in efficiency.

Medical record auditing was preventative measure to catch potential errors that can result in liabilities and investigations.

POST EVENT REPORT

Name of the event : 5 S /House keeping Practice
Date of the Event : 25-1-21
Organizing Department : IQAC
Location of Event : APDCH Conference Hall
Time : 12.00 pm to 4.00 pm
Number of persons attended : 9
Guest Speaker : Dr Dhivya

SUMMARY

The Training was held in person by Dr Dhivya for non-teaching staffs of APDCH .

The program highlighted about 5S housekeeping principles of waste elimination through workplace organization. 5S stands for the meaning as sort, set in order, clean, standardize, and sustain. The cornerstone of 5S is that untidy, cluttered work areas are not productive.

The speaker elaborated those physical implications of junk getting in everybody's way and dirt compromising quality. she insisted that we all are happier in a clean, tidy environment and hence more inclined to work hard with due care and attention. 5S and good housekeeping are core elements for all quality improvement programs. It is a process to create more productive people and more productive working atmosphere through motivation, education, and practice. It involves the creation of a strong corporate culture with a productivity mindset.

Best 5 S department will be awarded during the college day was announced by Principal to impart the quality culture in our Institution.

POST EVENT REPORT

Name of the event	: Prosthodontics Insight 2021
Date of the Event	: 22-01-2021
Organizing Department	: Department of Prosthodontics
Location of Event	: Mini Conference Hall, APDCH
Time	: 1:30-2:30pm
Number of teachers attended	: 12
Topic	: T-Scan – A occlusal digital magnifier
Guest Speaker	: Dr. Suresh Venugopalan

SUMMARY

With the Blessings of Arul Thiru Amma and Thirumathi Amma we the Department of Prosthodontics conducted a CDE program titled "Prosthodontics Insight 2021" on Jan22nd 2021 through google Meet. The program was organized under the guidance of our honourable college correspondent Dr Ramesh.T and our college Principal Dr Vasanthakumari.

Professor and HOD Dr Prabhu, Department of Prosthodontics introduced the guest speaker Dr. Suresh Venugopalan, Professor, Dept. of Prosthodontics & Implantology Saveetha Dental College, Chennai. He is also a Fellow of International Congress of Oral Implantologist, USA.

He has Guided more than 40 short term undergraduate research projects and 4 major postgraduate thesis projects also has 45 Research publications with 30 Scopus indexed & 8 Pubmed indexed published articles to his credit. Dr. Suresh is currently Academic head of Undergraduate clinic and Head of Occlusal Calibration Centre, Saveetha Dental College. He did extensive work in occlusion using T-Scan.

This webinar is a case series of work on evaluation of Occlusion using T-Scan. T-Scan is an objective assessment tool used to evaluate the occlusion of a patient. Unlike articulating paper, which can only determine location, T-Scan can identify both force and timing, two of the most fundamental parameters for measuring occlusion. Using T-Scan we can protect crowns, bridges, and veneers from high forces, ensure implants are not loaded early. It Improve efficiency by reducing repeat visits. The meeting was attended by the Staffs, Post graduates of our college and post graduates from various other institutions across the state.

E - Certificate of appreciation was given through online mode.

POST EVENT REPORT

Name of the event : New His – store module/indenting/new purchase inventory
Date of the Event : 7-1-2021
Organizing Department : IQAC
Location of Event : APDCH lecture Hall4
Time : 12.00 pm to 3.00 pm
Number of persons attended : 10
Guest Speaker : Mr Prabhu AO

SUMMARY

Hospital Information System HIS is a software program used for collection of various dental records that get generated during any clinical encounter or events. To support collaboration and targeted decision support, electronic records must contain accurate information about store module, indenting, new purchase inventory.

The session gave an overview about improved communication among the store manager team, targeted decision support being automatically routed to the appropriate administrative officer.

Mr Prabhu the administrative officer of APDCH along with the IT team Mr Ganapathy gave an elaborate presentation on how to use this software for recording the details. Each non-teaching faculty was given username and password to access the software which is installed in all their department.

The program was very effective for all non-teaching staffs to improve our quality measures in maintain the purchase and store details.

Time	: 11:30 am – 12:30 pm
Number of teachers attended	: 7
Topic	: Impact of periodontal diseases in general practice
Guest Speaker	: DR. Saravana Kumar.R MDS

SUMMARY

A warm greetings from the organizing team, Dentinar 1.0 With the blessing of Arul Thirammaavargal and Thirumathi ammaavargal. I thank our beloved MD sir for providing all needed support to conduct this event and also thank principal madam for her constant encouragement.

The Dentinar 1.0 with the guest speaker Dr. Saravanakumar MDS, Principal IGIDS and moderator Dr. Senthil Nathan MDS, Principal SVD was a grand success with 225 registration from various colleges in Tamilnadu. A review of the relationship between periodontal infections and its possible impact on systemic diseases was discussed by the speaker. He emphasized that it is important to stress the value of taking a detailed periodontal history and screening patients for periodontal problems. Students should be better educated and encouraged to understand and diagnose periodontal problems so that they can put a greater contribution to help improve one's life.

All the participants gained in-depth knowledge in the field of clinical Periodontics.

POST EVENT REPORT

Name of the event	: Fire safety measures awareness Program
Date of the Event	: 8-9-2020
Organizing Department	: IQAC
Location of Event	: APDCH Lecture Hall4
Time	: 1.00 pm to 4.00 pm
Number of persons attended	: 7
Guest Speaker	: Dr Enenezer

SUMMARY

Fire safety awareness is an educational process to remind everyone in the workplace of best practices to avoid creating a fire risk, and the measures to take in the event a fire happens in the workplace. Fire safety awareness is an attitude, an attitude that incorporates the understanding of four basic areas which are: The Nature, Causes, Behavior of Fire and Safety Management.

Agenda highlighted in the program:

- A simple scientific explanation of fire
- Identification of common workplace hazards associated with fires
- Fire behavior characteristics.

This program described at each of these elements in detailed way and concluded with identifying oxygen deprivation as the major cause of fire related deaths. Dr Ramya covered all the aspect of fire safety measures in her lecture and gave a demo to put off fire using fire extinguisher.

The program was successful for creating a quality enhancement to non-teaching staffs. Feedbacks were collected at the end of the program.

SUMMARY

The Prostho insight CDE program was held on 27.06.2020, at Auditorium for Staffs of APDCH and Interns, Postgraduate students and other colleges of Tamil Nadu. Inauguration function began with the moola manthiram to the Almighty, Welcome address was given by the Principal Prof Dr S. Thillainayagam. As the country is battling in preventing the spread of Covid19, the department of Prosthodontics as part of the e-learning process conducted series of webinar exclusively for the post graduates. The post graduates had interactive discussion with eminent international and national speakers in the specialty across the globe through these webinars.

Dr Jyothi kumar an eminent speaker highlighted on regeneration of individual tooth structures, the classical tissue engineering triad can be utilized, using dental stem cells, scaffold materials and relevant growth and differentiation factors. He concluded with a brief discussion of key components necessary to develop effective strategies for dental tissue engineering, which might enable us to implement novel regenerative strategies in clinical practice in the near future. **Dr.Reshmi Raju MDS,PhD** from the department of Stomatognathi function and occlusal Reconstruction, Institute of Biomedical sciences, Tokushima University, **Japan** delivered a lecture "**Tissue Engineering and Regenerative Techniques in Dentistry**". This webinar provided an insight into tissue engineering and regenerative techniques of dental tissues.

Location of Event	: APDCH,Auditorium
Time	:10.00 am to 1.00 pm
Number of teachers attended	:27
Topic	:Potentially Malignant Disorder
Guest Speaker	:Dr Vidhya Sekar.,MDS

SUMMARY

The Triple "OOO" CDE program was held on 2.06.2020 at Auditorium for Staffs of APDCH and Other colleges of Tamil Nadu.

The speaker for this program was Dr. Vidhya Sekar, MDS., Department of Oral pathology. The program begins with the moola manthiram to the Almighty, Welcome address was given by the Principal. The speaker was introduced by Prof Dr. Thilagavathy, Dept. of Oral Medicine.

The topic discussed was Potentially Malignant disorders. Detailed pathogenesis and advancements with current updates were discussed in the lecture. Differential diagnosis and management of different PMDs were also discussed. She focused that the transformation rates of potential malignant disorder to oral cancer vary based on multiple factors. Dentist should be aware of risk factors and clinical manifestations of these disorders and should intervene early to monitor and/or treat them to reduce the potential for malignant transformation.

The program ended with national anthem. Feedbacks were collected.

POST EVENT REPORT

Name of the event	: Micron – 2020 IHC
Date of the Event	: 13 March 2020
Organizing Department	: Oral pathology
Location of Event	: APDCH, Auditorium
Time	: 8.30 am to 4.30 pm
Number of teachers attended	: 14
Topic	: Immunohistochemistry (IHC)
Guest Speaker	: Dr.Ranganathan, Dr.sandhya,, Dr.veeravarmal & Dr. Vidhya rani

SUMMARY

The Micron -2020, a state level CDE Program on Immunohistochemistry (IHC) an advanced investigation procedure in the early detection and diagnosis of various types of oral cancer was held on 13 March 2020 at conference hall for Staffs of APDCH and Other colleges of Tamil Nadu.

The speaker for this program were Dr K.Ranganathan HOD, Department of Oral and Maxillofacial, Ragas dental college, Chennai), Dr Sandhya (Professor & HOD, Department of General Pathology, SRMC, Chennai), Dr Vidhya Rani (Professor, Department of Oral pathology, Sreebalaji dental college, Chennai), Dr. V. Veeravarmal (Professor, Department of pathology, Raja Muthaih dental college)

The program was conducted by the Department of Oral & Maxillofacial Pathology, APDCH. Dr. Vasanthakumari MDS., Principal of our institution presided as chief guest. Four guest lectures by eminent speakers from various universities presented on practical applications, recent research updates and various molecular markers in detecting oral cancers were presented. Post graduate students from various colleges and universities within the state attended and benefited from this program.

The lectures were very informative and interactive focusing on immunohistochemistry procedure and its importance in histopathology diagnosis of pre-cancer and cancer of oral regions.

POST EVENT REPORT

Name of the event	: Spill Management
Date of the Event	: 10-3-2020
Organizing Department	: IQAC
Location of Event	: APDCH, lecture Hall 4
Time	: 12.00 pm to 3.00 pm
Number of persons attended	: 13
Topic	: Spill management in hospitals
Guest Speaker	: Dr Sumanth MDS

SUMMARY

Spill management in hospitals is vital awareness program that has to be conducted as hour of need. This is due to the combination of hazardous substances, busy environment and vulnerable patients in the clinical department, but with the correct training and equipment in place, non-teaching staff can minimize the risk to themselves, to visitors and to patients.

Dr Sumanth NABH coordinator presented the lecture on the same to all non-teaching staffs. The principal objectives of this Spill Management session were to:

- Provide readily accessible emergency information to the cleanup crews, in the event of a spill
- Promote the safe and effective recovery of spilled materials
- Minimize the environmental impacts of spills to water or land
- Facilitate the management of wastes according to environmental legislation

Reporting of the spill, whether to management or to the appropriate committee, is theresponsibility of the non-teaching staff.

Dr Shamala MDS infection control coordinator gave vote of thanks and framed a team to implement and monitor the same.

Date of the Event : 20-2-20
Organizing Department : IQAC
Location of Event : APDCH lecture Hall 4
Time : 1.00 pm to 2.00 pm
Number of persons attended : 17
Guest Speaker : Preethi R.S, Quality Manager.

SUMMARY

As per the academic calendar, Disinfection training program was conducted in person by Preethi R.S, Quality Manager for quality enhancement of non-teaching faculties.

The training and organized by Dr. Sumanth, NABH Coordinator for Non- teaching staffs of APDCH .The training was done to ensure health worker safety and prevent health worker infections while in the work environment.

The Program provides crucial knowledge necessary to provide safe, effective quality patient care. This training about disinfectant is important and beneficial in the prevention of nosocomial infection in hospitals.

Training in these aspects can go in a long way in improving the hospital infection control practices Training attendance was documented alongside the training Questionnaire and feedback was collected.

POST EVENT REPORT

Name of the event	:Funding for Research
Date of the Event	: 05/12/2019
Organizing Department	:Department of Public Health Dentistry
Location of Event	: APDCH,Auditorium
Time	:10.00 am to 3.30 pm
Number of teachers attended	:22
Topic	: “Need for doing Research” & Funding for research: available agencies and what do they look for?
Guest Speaker	: Dr. Murali Mohan Reddy

SUMMARY

A total of 92 participants including faculties, post graduates, from various dental specialties, interns and Masters of Science (epidemiology) students from Tamil Nadu Dr MGR University have participated.

The first session was conducted on **“Need for doing Research(need and career opportunities)** by the speaker Dr. Murali Mohan Reddy at 10.40am. The session started with a opinion from the participants about their perception towards research. He gave examples of how research gave a breakthrough in the career growth of researchers. The guest speaker also emphasized on the increase in pressure among educational institutions to do and publish quality research projects. He sensitized the participants about NIRF(National Institutional Ranking Framework) and how it might impact students admissions when joining the institutions. He interacted with many participants to hear their difficulties in conducting research. The session was followed by tea break. After tea break, inaugural function was conducted.

The second session was conducted on **Funding for research: available agencies and what do they look for?** The guest speaker emphasized on maintaining a track record for procuring funds even if the fund is minimal. The guest speaker also said that completing a P.H.D degree will demonstrate necessary skill to complete an extensive research cycle. The guest speaker insisted the importance of collaborating with various specialties and fields to increase the probability of procuring funding and publishing the completed research projects.

The guest speaker gave the list of various avenues for funding like young researcher, young female researcher, travel grants etc. The guest speaker also encouraged participants to share their experience on their procurement of funding. The second session was followed by lunch.

During the third session the guest speaker took a session to explain co guide application, which was developed to simplify data entry and to get statistical analysis done. The choice of statistical analysis is automated in the application, which eliminates the confusion to choose appropriate statistical method. Nevertheless, during each step, there is a short tutorial video which explains about the respective statistical test. The application also has provision for data storage, until the researcher chooses to delete. The session concluded at 3.30pm.

POST EVENT REPORT

Name of the event	:Omr Unplugged
Date of the Event	: 13/11/2019
Organizing Department	: Oral Medicine
Location of Event	: APDCH,Auditorium
Time	:10.00 am to 1.00 pm
Number of teachers attended	:7
Topic	:Differential diagnosis of various lesions of oral cavity
Guest Speaker	:Dr S. Sudhakar,T.Saravanan

SUMMARY

Our department conducted the CDE program OMR UNPLUGGED on 13/11/2019 in the APDCH, Melmaruvathur. A total of 156 students of various colleges across the state attended the program, paper presentations and poster presentations were done by 53 students.

The organizing committee had invited two eminent speaker Dr S. Sudhakar and Dr T.Saravanan who spoke on investigation and differential diagnosis of various lesions of oral cavity.

The speaker insisted that proposing a new classification system is not just to influence the academic contribution, but also to assist at greatest extent for diagnosis during clinical practice.

Careful clinical interpretation with a better histological understanding of exophytic lesions may help the diagnosis from the differential diagnosis panel. The purpose of proposing classification system is to categorize the exophytic lesions of interest under specific clinical and/or histological explanation; and this will eventually lead to better understanding of the pathological condition that was described.

Participants were provided with gifts and take away gifts and certificates. The program ended with national anthem. Feedbacks were collected.

POST EVENT REPORT

Name of the event	: Hand washing technique training
Date of the Event	: 31-10-2019
Organizing Department	: IQAC
Location of Event	: APDCHlectureHall 4
Time	: 12.00 pm to 2.00 pm
Number of persons attended	: 18
Topic	: Hand washing technique Demo training
Guest Speaker	: Dr. Sumanth

SUMMARY

- Proficiency-based training program for hand hygiene has been conducted for non-teaching staff.
- Hand hygiene is critical to patient safety, but low performance in terms of the quantity and quality of hand hygiene is often reported. Detailed steps were delivered on the different steps of hand hygiene technique. Hand hygiene reduces the transmission of microorganisms (including those that are antibiotic-resistant), increases patient safety, and decreases health care-associated infection (HAI). Effective, timely hand hygiene is a cornerstone of infection prevention and control.
- By the end of this training, participants were able to:
 - Describe hand hygiene as a critical component of infection prevention and control;
 - Identify the 5 moments for hand hygiene;
 - Discuss glove use and hand hygiene during patient care activities;
 - Demonstrate the correct way to wash hands with soap and water according to the who-recommended method.
 - Demonstrate the correct way to perform hand hygiene with an alcohol-based handrub (ABHR) according to the who-recommended method;
 - Discuss key issues and considerations of hand hygiene in a health care facility.

Dr Sumanth MDS, elaborated training made the session livelier among the non-teaching staff and this program enhanced the quality improvement in them during covid crisis.

POST EVENT REPORT

Name of the event	: PEDOFFEAST 2019
Date of the Event	: 31/10/2019
Organizing Department	: Pedodontics and Preventive Dentistry
Location of Event	: APDCH, Auditorium
Time	: 8.30 am to 4.30 pm
Number of teachers attended	: 6
Topic	: A step ahead to elite dental management in children
Guest Speaker	: Dr Rangeeth, Dr Uma maheshwari, Dr Sharath, Dr Magesh, Dr Ganesh

SUMMARY

Department of Pedodontics and Preventive Dentistry conducted its annual milestone event "PEDOFFEAST 2019" on 31st October 2019 at the Platinum Jubilee Auditorium, APDCH. The Program was awarded with six CDE points from Tamil Nadu Dental council (378/19). The program consisted of five scientific lectures by eminent speakers, poster presentation and Quiz competition. Around 300 delegates from 18 colleges from Tamil Nadu & Puducherry participated in the program.

Certificate of appreciation and a memento were awarded to each guest speakers, scientific chair persons and quiz moderators as token of gratitude. Certificate of merit along with cash prize were awarded to students who won 1st, 2nd and 3rd place in the competitive rounds of quiz and poster presentations.

The program was very useful for all the participants especially for the undergraduate level. The idea of understanding the latest advancements in delivering the best and optimum Dental care in children actively involved all the delegates, ultimately making this event a grand success.

Name of the event	: Sakthi Om Face 2019
Date of the Event	: September 20th 2019
Organizing Department	: Oral and Maxillofacial Surgery
Location of Event	: APDCH, Auditorium
Time	: 9.00 am to 2.30pm
Number of teachers attended	: 7
Topic	: Tmj Arthrocentesis- Live Demonstration & hands on workshop
Guest Speaker	: Dr.M.R.Muthu Sekhar MDS, Dr.A.Thangavelu MDS, Dr.Vivek Narayanan MDS

SUMMARY

The Department of Oral and Maxillofacial Surgery, Adhiparasakthi Dental College and Hospital have conducted a CDE Program on "TMJ ARTHROCENTESIS - LIVE DEMONSTRATION & HANDS ON WORKSHOP" on September 20th 2019 under the guidance of our respected Correspondent Dr.T.Ramesh and beloved Principal Prof.Dr.Thillainayagam.

Guest speakers for the program were Dr.M.R.MuthuSekhar MDS., Professor & Head of Department, Saveetha Dental college and Hospital, Chennai, Dr.A.Thangavelu MDS., DNB., Professor & Head of Department, Rajah Muthiah Dental College and Hospital, Chidambaram and Dr.Vivek Narayanan MDS., Professor & Head of Department, Dean, SRM Dental College, Kattankulathur.

Primary focus of the event was to discuss with CRRI and PG students about the disorder of the Temporomandibular Joint - Internal derangement and one of its treatment modality, "ARTHROCENTESIS". Demonstration and Hands On was given mainly for the Post Graduate students. The entire aspect of non-surgical, minimally invasive and PO surgical procedures were enlightened by the guest speakers which were highly motivational and well received by the students. Participants were encouraged with awards and certificates.

More than 140 students participated in the program from various Dental colleges like ASAN, KIDS, Vels University Chennai, Balaji, Saveetha, Meenakshi Ammal, Tagore Dental college, Government Dental college Chennai & Sree Venkateshwara Dental college Pondicherry. We have thanked the Principal and HOD of respective colleges for their active participation and support

POST EVENT REPORT

Name of the event : PERIOSAKTHI 19
 Date of the Event : September 13th 2019
 Organizing Department : Department of Periodontics
 Location of Event : APDCH, Auditorium
 Time : 9.30am to 7.30 pm
 Number of teachers attended : 5
 Topic : Power of Periodontium
 Guest Speaker : Dr Muthukumaraswamy, Dr jayakumar, Dr Muthukumar, Dr Prakash, Dr Uma, Dr vijayalakshmi, Dr Selvakumar, Dr Rajsekar, Dr Balaji

SUMMARY

We from the department of Periodontics concluded a one day post graduate CDE program PERIOSAKTHI on September 13th 2019. The program was granted 6 DCI credit points by Tamil Nadu Dental Council.

With the blessings of Arulthiru AMMA, Thirumathi AMMA and with the support of correspondent sir and principal sir, the program started around 9:30 am with an inaugural function. After moolamanthiram prayer and tamilthaivazthu, lighting of the kuthuvilakku was done by vice principal madam along with the speakers. Welcome address was given by the HOD. It was followed by the felicitation of the guest speakers, staff from other colleges and the staff of APDCH. After the vote of thanks, the academic session began.

The lectures started around 10.00 Am and proceeded till 7.30Pm as per schedule by eight eminent speakers from various dental colleges of Tamilnadu. 96 participants from sixteen dental Colleges registered for the program and students from each college presented papers and posters on special case, original studies and review in Periodontics. Four faculties from different dental colleges participated as moderators for scientific paper and e-poster session.

The valedictory function was held after all the scientific sessions ended. The best papers were awarded cash prizes as follows: I place- Rs3000; II place —Rs2000; III place-Rs 1000. Two prizes were given in each category. Certain participants were also given consolation prizes. All participants were given participation certificate at the end of the scientific session. The best

POST EVENT REPORT

Name of the event	: Oral hygiene sensitization
Date of the Event	: 8-2-2019
Organizing Department	: IQAC
Location of Event	: APDCH lecture Hall 4
Time	: 12.00 pm to 2.00 pm
Number of persons attended	: 19
Guest Speaker	: DR Rajeshwari

SUMMARY

Oral health knowledge is considered to be an essential prerequisite for health related behavior. It has been observed that oral hygiene has mostly remained as an ignored and unrealized major social problem. Majority of the people are unaware about the relationship between oral hygiene and systemic diseases or disorders. Many diseases show their first appearance through oral signs and symptoms and they remain unchanged or untreated because of this missing awareness.

This awareness program is to educate and spread knowledge of proper dental care and prevention of dental diseases through the dentists, outreach programs and relevant public health awareness measures to make a healthy individual and a healthy society.

Although dental health education is a relatively new discipline within dentistry, it is suggested that this session should be initiated in life, be delivered by trained personnel.

Dr Rajeshwari MDS , Public health dentistry department conducted a lecture and Demo session on Oral hygiene sensitization for all the non-teaching staffs. 19 of them attended and the program was grand success.

SUMMARY

The Training was held in person by ISO consultant Mrs Lavanya from Creative Consultancy for the non-teaching Staff. The training and organized by Dr.Bharath, Management Representative for non-teaching staffs of APDCH. Patients' satisfaction is a useful measure of the quality of service. An expression of satisfaction or dissatisfaction is also the patients' judgment on the quality of service in all its aspects.

Sensitization of clinical non-teaching staffs towards quality health service may be necessary to generate options in service provision and improve patient satisfaction. Consumers make judgment about quality of services by assessing factors they can appraise such as courtesy, responsiveness, attentiveness and perceived competence; waiting time after arrival at the health center and duration of examination.

The speaker elaborated on the key points as follows:

The quality of services can be classified under three categories: Structure, process and outcome. Structure denotes the attributes of the settings in which patient care occurs. Process denotes what is actually done in giving and receiving care. Outcome refers to the effects of care in the health status of patients and populations.

Overall, the program was benefited by the clinical non-teaching staff to improve their quality measures. Feedback was collected and documented.

POST EVENT REPORT

Name of the event	: Anti Ragging awareness program
Date of the Event	: 20 December 2018
Organizing Department	: IQAC
Location of Event	: APDCH, Auditorium
Time	: 10.30 am to 12.00 pm
Number of teachers attended	: 21
Topic	: Say No to Ragging
Guest Speaker	: Dr Sainath., MDS, DCI member

SUMMARY

The Anti Ragging awareness program was held on 20 December 2018 at Auditorium Second floor academic block from 10.30 am to 1.30 pm for the Interns, Postgraduate students and Staff

The speaker for this programme was Dr Sainath, Member, DCI. Inauguration function began with the moola manthiram to the Almighty, Welcome address was given by the Principal Prof Dr S. Thillainayagam. The speaker was introduced by Prof Dr. T Ramakrishnan H.O.D Department of Periodontics.

The speaker delivered a lecture on the importance of the topic and highlighted the extended definition of ragging given by the Supreme Court of India. And, various forms of ragging with examples were enumerated in the lecture. The consequences of ragging were taught and students were given awareness regarding the punishments for ragging under the law. Students were also informed of their part and the role they should play in approaching the concerned personnel in case they are faced with any instances of ragging.

Anti-ragging committee of APDCH took decision to follow the same and monitor the new batch students with care.

The program ended with vote of thanks and national anthem.

POST EVENT REPORT

Name of the event	:Prostho insight
Date of the Event	: 13 th December 2018
Organizing Department	:Prosthodontics and Crown Bridge
Location of Event	:APDCH, Auditorium
Time	:9.30 am to 3.30 pm
Number of teachers attended	:9
Topic	: Digital Complete Denture – Hand on
Guest Speaker	:DrPeter Bohmert

SUMMARY

The Prostho insight CDE program was held on 13thDecember 2018 at Auditorium and followed by Hands on training on 14th and 15th December 2018 for Interns, under graduate students and Staffs of APDCH and Other colleges of Tamil Nadu.

Inauguration function began with the moolamanthiram to the Almighty, Welcome address was given by the Principal Prof Dr S. Thillainayagam. The speaker was introduced by Prof DrVenkateshan H.O.D Department of Prosthodontics.

DrPeterBohmerthighlighted on the topic as Digital denture design and denture base milling should be considered as to streamline the workflow compared to conventional methods. At the same time, digital dentures ensure a high standard of quality in terms of esthetics and function.

The speaker highlighted the advantages and their applications of using Scanning technologies, combined with CAD/CAM processes, substantially that would reduce the workload associated with the fabrication of complete dentures. Virtual setup and design facilities (CAD) and denture milling procedures (CAM) shall eliminate the entire processes involved in model articulation and flasking. As polymerization shrinkage does not occur, the dentures exhibit a high accuracy of fit.

The session was followed by 2 days hands on and workshop. All the participants were actively participated in the program. The program was ended with certificate distribution and national anthem.

POST EVENT REPORT

Name of the event : NABH Induction Training
 Date of the Event : 13-10-2018
 Organizing Department : IQAC
 Location of Event : APDCH lecture hall 4
 Time : 12.00 pm to 2.00 pm
 Number of persons attended : 15
 Topic : NABH Accreditation benefits
 Guest Speaker : PreethiR.S, Quality Manager MBA

SUMMARY

- National Accreditation Board for Hospitals & Healthcare Providers (NABH) is a constituent board of Quality Council of India, set up to establish and operate accreditation standards for healthcare organizations in Hospitals.
- Accreditation to a health care organization stimulates continuous improvement. It enables the organization in demonstrating commitment to quality care and patient safety thereby ensures best clinical outcomes. It raises community confidence in the services provided by the health care organization as services provided by credentialed medical staff. It also provides opportunity to healthcare unit to benchmark with the best. An accreditation status also provides marketing advantage in a competitive health care.
- To comply with these standards, the hospital will need to have a process driven approach in all aspects of hospital activities
 - The testimony that hospital wishes to increase the patient's experience positively.
 - A mark of international recognition for our Institution.
 - Valuable to the hospital for medical tourism
- In a nutshell NABH aims at streamlining the entire operations of a hospital. This topic was highlighted by **PreethiR.S, Quality Manager MBA** in hospital management. The newly joined non-teaching staffs were trained to improve the quality in clinical practice.

Topic	:Cytology – Basic to recent concepts, A – Z, article writing and publication and Grossing of specimen
Guest Speaker	:Dr T Rooban, Dr. Elizabeth Joshua & Dr Thanka

SUMMARY

The CDE program “Micron 2018” conducted by Department of Oral Pathology & Microbiology, was held on 10th October 2018 at Auditorium for Interns, Postgraduate students and Staffs of APDCH and Other colleges of Tamil Nadu.

A total number of 21 colleges from all over Tamilnadu and Pondicherry participated in the CDE program. 340 delegates (40 Faculties, 300 Students) registered and attended the program.

The guest of honour was Prof. Dr. T. R. Saraswathi, Retd. Principal Incharge, Government dental college, Tamilnadu. She is the first women dental surgeon to hold the post of principal in charge of the Government dental college in the state of Tamilnadu. She was honoured with life time achievement award by Governor of Tamilnadu on behalf of Dr. MGR medical University. The programme was inaugurated by lighting of kuthuvilakku by Prof. Dr. S. Thillainayagam, M.D.S., Principal of APDCH, Guest of honour and the Guest speakers.

Prof. Dr. S. Shamala Ravikumar delivered the welcome address. The Principal of APDCH Prof. Dr. S. Thillainayagam and the Guest of honour Prof. Dr. T. R. Saraswathi addressed the gathering. The Principal of APDCH Prof. Dr. S. Thillainayagam felicitated the Guest of honour and the guest speakers. Vote of thanks was delivered by Dr. K. Dhivya, Reader, Dept. Of Oral Pathology & Microbiology, APDCH.

Guest speaker Prof. Dr. J. Thanka, gave an elaborate lecture on ‘Cytology – Basics to Recent concepts’. Prof. Dr. Elizabeth Joshua gave an interactive and informative lecture on ‘Grossing of specimen: A necessity for accurate diagnoses. She also explained rare grossing reports in detail. Prof. Dr. T. Rooban, gave an extensive lecture on ‘A – Z of article writing and publication’.

After the guest lectures, scientific sessions were held. Total of 26 scientific e-posters (PG – 19, UG – 7) were presented in 3 different halls. The scientific presentations were judged by

POST EVENT REPORT

Name of the event	:Smile design
Date of the Event	:23-08-2018
Organizing Department	:Prosthodontics crown & bridge
Location of Event	:APDCH Platinum Jubilee Auditorium
Time	:10.00 am to 4.30 pm
Number of teachers attended:	17
Topic	:Designing a perfect smile
Guest Speaker	:Prof.Dr. Sathish Simha Reddy

SUMMARY

The department of Prosthodontics crown & bridge at Adhiparasakthi Dental College & Hospital conducted a CDE programme on 23rd August 2018.

The guests speaker of the program Dr. Sathish Simha Reddy was felicitated and welcomed by our Principal Prof. Dr. S.Thillainayagam The focus of the program was to achieve pleasing composition in the smile by creating an arrangement of various esthetic elements.

The lecture aims at less reduction of tooth structure and greater esthetics and durability. This simply means that cosmetic dentistry has to be a multispecialty branch, wherein all treatments like orthodontics, Periodontics, and surgical procedures have to be performed whenever necessary.

This program made a novel attempt to summarize the current concepts in smile design in Prosthodontics in a systematic manner. Ideal Smile is what makes the person happy. Recommendations include that smile designing should be used as an auxiliary tool because beauty lies in the eyes of the beholder and ultimately mimicking the nature always works best. With advances in digital dentistry including the dental materials and techniques and usage of the recent concepts of smile design in Prosthodontics, the program enlightened the delegates with through knowledge.

Post graduate students from various colleges and universities within the state attended and benefited from this program. The program ended with the vote of thanks and national anthem.

POST EVENT REPORT

Name of the event	:Ballistic Trauma - An insight about gunshot injuries In maxillofacial trauma
Date of the Event	: 3 August 2018
Organizing Department	:Oral Surgery
Location of Event	:APDCH, Auditorium
Time	: 9.30 am to 1.30 pm
Number of teachers attended	:8
Topic	:Maxillofacial Trauma
Guest Speaker	: Dr Veerabaghu

SUMMARY

Ballistic Trauma, A state level CDE Program on an insight about gunshot injuries in maxillofacial traumawas conducted on 3 August 2018 by the Department of Oral & Maxillofacial Pathology, APDCH. Dr. Thillainayam MDS, Principal of our institution presided as chief guest.

Two guest lectures by eminent speakerDrVeerabaghurenownedmaxillofacial surgeon with special interest in facial cosmetic surgical corrections from Ragas Dental College presented. Post graduate students from various colleges and universities within the state attended and benefited from this program.

The lectures were very informative and interactive focusing on Trauma procedure and its importance in clinical management. A broad show of techniques was performed, extending from minor surgery through to complex real head and neck surgery. The session was special in essentially rehearsing surgery including both hard and delicate tissue with anatomical specialization in the face, mouth and jaws. Queries regarding session were discussed.

At the end of the program a heartfelt thanks were given to the guest speaker and the delegates. Overall, the program was a beneficiary to the student delegates and staff members.

POST EVENT REPORT

Name of the event : continual improvement - Kaizen for non-teaching staff
Date of the Event : 17-6-2018
Organizing Department : IQAC
Location of Event : APDCH lecture hall 4
Time : 12.00 pm to 2.00 pm
Number of persons attended: 16
Guest Speaker : Dr Bharath and Mr Parivel

SUMMARY

- The program is aimed at evaluating the need to revise the overall institutional objectives. The major components of this session include non-teaching staff must recognize the need to change to improve substantially, which often means adopting new paradigms to achieve major improvements.
- This session provides an overview of CQI concepts and processes as: Define CQI and how it applies to Institutional implementations and practice improvement strategies. Identify a conceptual framework to consider when implementing CQI techniques in a practice setting. Explore tools, techniques, and strategies that the non-teaching staff use to guide and manage CQI initiatives.

The Training was held in person by consultant **Mr.Parivel** from Vishnu Consultancy at Mini conference hall first floor academic block for the non-teaching Staff. The training and organized by **Dr.N.Bharath**, Management Representative. The program provided the knowledge and skills to implement, maintain and improve the more technical aspects of a quality management system

POST EVENT REPORT

Name of the event	: Biomedical Waste Management
Date of the Event	: 14.5.2018
Organizing Department	: IQAC
Location of Event	: APDCH lecture Hall 4
Time	: 12.00 pm to 2.00 pm
Number of persons attended	: 15
Guest Speaker	: Dr Suresh MDS

SUMMARY

Hospital waste is a potential health hazard to the health care workers, public and flora and fauna of the area. Segregation is the most crucial step in bio-medical waste management. Effective segregation alone can ensure effective biomedical waste management. The bins and bags should carry the biohazard symbol indicating the nature of waste to the patients and students.

All non-teaching members, hospital workers have been given a one day training on BMW rules - 2016 by guest speaker DR SURESH organized by the hospital infection control committee .

The latest guidelines for segregation of bio-medical waste recommend the following color coding:

- Red bag – syringes (without needles), soiled gloves, catheters, IV tubes etc. Should be all disposed of in a red colored bag, which will later be incinerated.
- Yellow bag – all dressings, bandages and cotton swabs with body fluids, blood bags, human anatomical waste, and body parts are to be discarded in yellow bags.
- Cardboard box with blue marking – glass vials, ampoules, other glass ware is to be discarded in a cardboard box with a blue marking/sticker.
- White puncture proof container (PPC) – needles, sharps, blades are disposed of in a white translucent puncture proof container.
- Black bags – these are to be used for non-bio-medical waste

The session was concluded by creating surveillance groups within hospitals and everyone would be held accountable for misconduct and improper disposal of waste. Consequences could be implemented where non-teaching staffs would be required to monitor if they violate the rules.

Topic	:Introduction to Virology&Head and Neck Viruses
Guest Speaker	: Dr Madhavan Nirmal

SUMMARY

A Continuing Dental Education (CDE) program was organized by Department of Oral Pathology, APDCH on 11 May 2018

The grand show commenced by the inauguration ceremony and prayer song. There was a warm welcome of the distinguished speaker and delegates by the Principal Dr.Thillainayagam, followed by lightening of lamp. The guest speaker Dr Nirmal and chief guest of the program Dr Sainath were facilitated and welcomed by principal with warm words and mementos.

The program had 2 guest lectures by Prof. Dr. Madhavan Nirmal which elaborated on Virology and head and neck virus.

The sessions were extremely interactive with active involvement of participants including UG's and PG's from various colleges of Chennai.

After the thought-provoking guest lectures, the Scientific Session started with E-poster presentations separately for UG & PG student delegates. The best posters were rewarded with a certificate.

At the end Dr.Dhivya, Reader, Dept of Oral Pathology, APDCH, gave a heartfelt thanks to the guest speakers and the delegates. Overall, the program was a beneficiary to the student delegates and staff members.

Guest Speaker	:Dr. Carounanidy Usha, Dr. N. Velmurugan, Dr. M. Rajasekaran and Dr. M. Kavitha

SUMMARY

Rapid Analysis of Conservative Dentistry and Endodontics (RACE 2018) is a state level program for undergraduates and teaching faculty

The topics for this program were selected from the previous year university papers.

These topics will be covered by the leading academicians from various colleges Dr. Carounanidy Usha, Dr. N. Velmurugan, Dr. M. Rajasekaran and Dr. M. Kavitha across the state.

The objective of this program was to orient the students toward the exam-oriented topics and to approach the questions with key points that should be included in the answers. The topics covered in the session were Dental Caries, Endodontic Surgery, Dental Ceramic, Complex amalgam Restoration. The students from various colleges throughout the state attended the program.

They found the program was very interesting and useful for their exams to achieve higher score.

Date of the Event	: 26-4-2018
Organizing Department	: IQAC
Location of Event	: APDCH lecture Hall 4
Time	: 12.00 pm to 2.00 pm
Number of persons attended	: 10
Guest Speaker	: Dr James Bhagat MDS

SUMMARY

APDCH organized Employee health insurance benefits program for all non-teaching staffs. The session insisted on what their health care needs are and how to access providers, staffs need a way to pay for the health care they receive.

Health insurance is a product that helps to minimize the financial impact of a person's medical costs by transferring some of the risk to the insurance provider. A health insurance plan will yield several different types of costs that are important for plan participants to be able differentiate and calculate, such as premiums and cost sharing.

This session reviewed these cost-related concepts, as well as introduced additional spending and savings options that can be used to pay for health care and supplies. The program also reviewed several federal laws that protect participants of group health plans and explained how non-teaching staffs might be charged for certain medical services that are not covered under the health insurance plan.

Dr James MDS lecture on this topic was very much useful to all nonteaching staffs and the program ended with a vote of thanks and National anthem.

POST EVENT REPORT

Name of the event : Basic life support training
 Date of the Event : 12-3-2018
 Organizing Department : IQAC
 Location of Event : APDCH lecture Hall 4
 Time : 12.00 pm to 2.00 pm
 Number of persons attended : 12
 Guest Speaker : Dr James Bagat MDS

SUMMARY

Dr James Bagat MDS, Oral Surgery department conducted a lecture and Demo session on BLS training for all the non-teaching staffs. This session was designed to provide the knowledge about what constitutes basic life support, and when it is to be administered. The nonteaching staffs will know the steps in basic life support, how to identify symptoms of a patient and how to administer Cardiopulmonary Resuscitation (CPR).

- Focus on straight-forward, direct action steps to identifying a situation requiring basic life support
- Videos and images to explain the process and procedure for administering BLS
- Videos, reading materials, tools, checklist, and assessments to make learning engaging and immersive
- Easy to access anytime, anywhere
- Competency assessment and certification from IQAC

At the conclusion of this session, the nonteaching staffs were able to:

- Explain the importance of early CPR
- Recall the basic steps of 1 and 2 rescuer CPR for adults, children and infants
- Explain the importance of early defibrillation

Overall the program was very useful to all of them. Feedbacks were collected and the session ended with vote of thanks.

POST EVENT REPORT

Name of the event	: Direct Filling Gold
Date of the Event	: 6-03-2018
Organizing Department	: Department of Conservative Dentistry and Endodontics
Location of Event	: APDCH Conference Hall
Time	: 9.00 am to 4.00 pm
Number of teachers attended	: 18
Topic	: Cast and Direct Gold Foil Operation
Guest Speaker	: Dr. Alfred Wendell Foltz, Dr. Warren K Johnson
Dr. Prabhakar Joseph	

SUMMARY

The department of conservative and Endodontics at Adhiparasakthi Dental College & Hospital conducted a CDE program on 6th March 2018

The 3 guestspeakers of the program, was felicitated and welcomed by our Principal Prof. Dr. S.Thillainayagam. The first speaker delivered lecture on gold foil restoration as a filling technique of decayed teeth that exploits the properties of gold of being welded in its cold state, due to its highly cohesive nature.

The second speaker highlighted; various techniques have been advanced for its use in the restoration of teeth. It is generally agreed that this noble metal is a superior restorative material for treatment of many small lesions and defects in teeth, given sound pulpal and periodontal health. Success is achieved with direct gold restorations if meticulous care is given to an exacting technique in tooth preparation design and material manipulation

The third speaker delivered the keynote lecture on direct gold foil restorations in the afternoon session. The session included lectures on incorporating gold into clinical practice, pulpal reactions to gold restorations, cast gold restorations, etc. The post lunch session featured table demonstrations of direct gold fillings with many of the participants expressing intent to pursue a career in gold restorations after participating in this hands-on program. All the participants in the program received certificates.

Number of teachers attended	:8
Topic	:Hair Transplant – A complete overview
Guest Speaker	:Dr.Sainath. MDS

SUMMARY

The department of Oral & Maxillofacial Surgery at Adhiparasakthi Dental College & Hospital conducted a CDE program on 13th February 2018.

The guestspeaker of the program Dr. Sainath., was felicitated and welcomed by our Principal Prof. Dr. S.Thillainayagam.

The focus of the program was elaborated by the speaker as one of the most rapidly evolving procedures in aesthetic surgery, accompanied by regular improvement in techniques. The recent advances in technology and the concept of using follicular unit grafts have made this procedure reach a new height. The ability to provide very natural-looking results has encouraged larger number of balding men and women to opt for this surgical solution.

Post graduate students from various colleges and universities within the state attended and benefited from this program. The program ended with the vote of thanks and national anthem.

Topic	:Challenges in Prosthodontics
Guest Speaker	:Prof.Dr.Arunkumar, MDS

SUMMARY

The department of Prosthodontics at Adhiparasakthi Dental College & Hospital conducted a CDE program on 22nd January 2018

The guestspeaker of the program Dr. Arun Kumar was felicitated and welcomed by our Principal Prof. Dr. S.Thillainayagam.

The speaker highlighted about the challenges in Prosthodontics in area of pre-clinics. He promotes development of competency and expertise before students work on patients, but this phase is devoid of exposure to real patients leading to challenges in teaching-learning.

The students and faculty expressed a "need" for early clinical exposure to enhance the learner's understanding of the preclinical aspects of the subject. The session highlights the need for change in instruction methods to enhance the learning experiences in preclinical Prosthodontics.

Various UG students from other institutions as well as APDCH along with teaching faculties attended the program. It was fruitful for everyone.

Location of Event	:APDCH Auditorium
Time	:9.30 am to 11.30 am
Number of teachers attended	:19
Topic	:Lecture on Amalgam Alternative
Guest Speaker	:Dr. Med. Dent. Philipp Schneider, DMD

SUMMARY

The department of Conservative and Endodontics at Adhiparasakthi Dental College & Hospital conducted a CDE program on 19th December 2017.

The guest speaker of the program was Dr. Med. Dent. Philipp Schneider, DMD, who was felicitated and welcomed by our Principal Prof. Dr. S.Thillainayagam.

Amalgam is considered one of the hallmark materials of restorative dentistry and it is clear to see why; its longevity, affordability, and ease of manipulation have made it universally popular amongst dentists.

The speaker highlighted that the material of choice in posterior restorations is influenced by many factors namely funding, time expenditure, experience, clinical outcomes, and pre-existing attitudes.

The speaker emphasized the need for further development of research into alternative materials and optimizing current techniques if practices are to be successfully independent of amalgam. Most importantly perhaps, a shift in attitude is required and the first step may be to remember that composite resins are alternatives to amalgam.

Vote of thanks was delivered by Dr. Bharath and the program was ended with national anthem.

SUMMARY

The department of Oral & Maxillofacial Surgery, Oral Pathology and Oral Medicine, at Adhiparasakthi Dental College & Hospital conducted a CDE program on 15 December 2017.

The guest speaker of the program were felicitated and welcomed by our Principal Prof. Dr. S.Thillainayagam.

The speakers presented on the following topics;

- Review the pathophysiology of Odontogenic tumors of the jaw.
- Outline the clinical presentation of the most common odontogenic tumors of the jaw.
- Describe the imaging findings associated with each tumor.
- Summarize the available treatment options when dealing with different odontogenic tumors.

The symposium was concluded with the importance to educate the delegates on the natural history of different Odontogenic tumors and highlight the red flags to look for, such as rapid growth, neurosensory changes, pain, and neck masses. In addition, ensuring the delegates on how to examine patients and for evaluating better prognosis. The program ended with the vote of thanks by Dr. Dhivya and feedbacks were collected.

Name of the event	: Sensitization program for dental graduates
Date of the Event	: 5 th December 2017
Organizing Department	: IQAC
Location of Event	: APDCH Platinum Jubilee Auditorium
Time	: 9.00 AM to 1.00 PM
Number of teachers attended	: 21
Topic	: Teaching and learning methodology
Guest Speaker	: Prof .Dr.N.Kannan and Prof T.A.R Raja

SUMMARY

Sensitization program for dental graduates was conducted at APDCH, for 3 days from 5th December 2017-7th December 2017. The program highlighted on teaching and learning methodology. The various topics discussed were principles of learning, tools for teaching, teaching learning methods, writing a lesson plan, Assessment in evaluation needs and tools of assessment. Various eminent speakers on this field were discussing this topic elaborately.

The main objective of the program was

- To ensure continuous quality improvement in teaching learning and assessment in professional education
- To facilitate educational research through projects and research publication
- To update the faculty of the current trends in dental education by conducting workshops and conferences.
- To contribute towards institutional activities of feedback system, communication skills, humanities and Professionalism

The program highlighted the quality of teaching, learning and assessment of students at various levels of educational initiatives and to transform teachers into competent dental educators.

28 faculty members of various departments of APDCH participated, the feedbacks of the program were collected and a separate DEU for dental college to be framed was proposed.

 Guest Speaker : Dr Gandhi Ponnaiah

SUMMARY

The department of Oral & Maxillofacial Surgery at Adhiparasakthi Dental College & Hospital conducted a CDE program on 6th November 2017. The guest speaker of the program Dr Gandhi Ponnaiah, was felicitated and welcomed by our Principal Prof. Dr. S.Thillainayagam.

Transfusion medicine has evolved into the clinical practice of a multi-dimensional field that incorporates elements of blood banking, immunohematology, coagulation, and hematology. The program highlighted on how to Work on transfusion reactions under the close supervision of the doctors. The program highlighted the care and treatment of persons with hemophilia and other inherited bleeding disorders. The speaker has attempted to present the significant effects of these changes in the cellular elements and composition of plasma upon the oral cavity. It also came to be appreciated that many disease states produce typical changes in the composition of blood. Some of these changes affect the chemical composition of plasma and other the cellular elements. Any single measurement of the components of blood represents only a momentary glimpse of an ever-changing state. At the end of the session, the program ended with the vote of thanks and national anthem.

Name of the event	:Pathscope – CDE program on salivary gland Tumors
Date of the Event	:11 th October 2017
Organizing Department	:Oral Pathology and Microbiology
Location of Event	:APDCH Platinum Jubilee Auditorium
Time	: 8.30 am to 4.30 pm
Number of teachers attended:	12
Topic	:Recent concepts and advances, how easy is pathological diagnosis and approach to immune diagnosis of tumors.
Guest Speaker	:Prof.Dr.K Ranganathan, Prof.Dr.I.Ponniahand, Prof. Dr Madhavan Nirmal

SUMMARY

A Continuing Dental Education (CDE) program was organized by Department of Oral Pathology, APDCH on 11thOctober 2017.

The grand show commenced by the inauguration ceremony and prayer song. There was a warm welcome of the distinguished speakers and delegates by the Principal, followed by lightening of lamp. The guest speakers greeted and encouraged the delegates with their warm and motivated words. The program had a theme topic as salivary gland Tumors which included 3 guest lectures.

The sessions were extremely interactive with active involvement of participants including UG's and PG's from various colleges of Chennai and Pondicherry. After the thought provoking guest lectures, the Scientific Session started with E-poster presentations separately for UG & PG student delegates.

Around 15 E-poster presentations of diagnostic difficult clinical cases based on our CDE theme were presented by the student delegates. It gave an opportunity to interact with other college students for discussing their challenging case reports. Dr.Velzhventhan, Prof. Dept of Oral Pathology, IGIDS, Pondicherry and Dr.Sreeja, Reader, Dept of Oral Pathology, Chettinad Dental College were judging the sessions. The best posters were rewarded with a certificate. At the end Dr.Dhivya, Reader, Dept of Oral Pathology, APDCH, gave a heartfelt thanks to the guest speakers and the delegates. Overall the program was a beneficiary to the student delegates and staff members.

Time	:9.30 am to 3.30 pm
Number of teachers attended	:11
Topic	:Critical Appraisal of Scientific Literature
Guest Speaker	:Dr.Sangeetha Duraisamy

SUMMARY

All department HOD, staffs and postgraduates came for Ortho day" 17 and the inaugural function commenced at 10.00 am. Our Vice principal Dr. Thilagavathy, MDS., was Felicitated by our department HOD Dr. Sudhakar, then the session was taken over by our guest speaker Dr.Sangeetha Duraisamy. We had lecture on "Critical appraisal of scientific literature - The need of the hour". Critical appraisal is a systematic process used to identify the strengths and weaknesses of a research article in order to assess the usefulness and validity of research findings. The most important components of a critical appraisal are an evaluation of the appropriateness of the study design for the research question and a careful assessment of the key methodological features of this design. The program aimed to assist teaching staffs to identify the most relevant high-quality studies available to guide their scientific research. This was followed by valedictory function with trophy & framed certificates for toppers of university examination Aug 2017.

Toppers:

1stMark - Vaishali

2ndMark - Rajathi.K

3rdMark - Archana P and Nalini.P

Time	:9.30 am to 1.30 pm
Number of teachers attended	:6
Topic	:Hands on workshop – Edge Wise to Lingual
Guest Speaker	:Dr Puneet Batra , Dr Sunandha Roy Chowdary

SUMMARY

The National Integrated Typodont Workshop 2017 in association with Indian Orthodontic Society was conducted from September 21st-23rd 2017 by Department of Orthodontics. This 3 day National level workshop was jointly organized by 3 colleges namely Indira Gandhi Institute of Dental sciences, Adhiparasakthi Dental College and Hospital, Melmaruvathur and Raja Muthiah Dental College and Hospital, Annamalai University. This workshop was attended by more than 90 post graduate delegates and 25 faculties of various colleges from all over the country.

The guest speaker delivered on the first session lectures and hands on session on Standard Edgewise Typodont (tweed mechanics) – arch forms, various loops & co-ordinated arches.

The second part of the session involved lectures on anchorage preparation and retraction mechanics for standard edgewise typodont. Post lunch, all the delegates and organizing members assembled for the Inaugural function.

The Vote of thanks was delivered, at end of the session, feedbacks were collected.

POST EVENT REPORT

Name of the event	:PedoFeast
Date of the Event	: 12th September 2017
Organizing Department	: Department of Pedodontics
Location of Event	:APDCH Conference Hall
Time	;10.00 am to 1.00 pm
Number of teachers attended	:9
Topic	:Micro Endodontics & Dental Trauma and Its Management in children
Guest Speaker	:Dr.NESTOR COHENCA, DOS, FLADT

SUMMARY

The Department of Pedodontics conducted a Continuing Dental Education Program – (PEDO FEAST) on 12.09.2017- delivered by Dr.NESTOR COHENCA, DOS, FLADT, President-in National Association of Dental Traumatology, Professor-University of Washington School of Dentistry, Seattle Chilles Hospital, US between at Adhiparasakthi Dental College and Hospital, Auditorium. The program started with Lighting of kuthuvila and Felicitation of guest speaker by Correspondent Dr.Ramesh T. Welcome address delivered by HOD Dr. Vasantha Kumari, around 310 participants attended the program from different colleges of Tamil Nadu & Puducherry and Chest Hospital. The eminent Speaker delivered two topics on: Micro Endodontic and Dental Trauma & Its Management in children. Epidemiology of dental trauma was discussed in terms of its incidence and prevalence among primary and permanent dentition. Dental trauma causes and its distribution in accordance with age and sex was highlighted. Classification of dental trauma based on soft and hard tissue injuries was outlined, and subsequently, clinical examination and diagnosis was featured. Treatment modalities and variations between permanent and primary dentition was discussed along with the new treatment era namely regenerative approach and decoronation. Certificate of appreciation awarded to the speaker. The program was very useful for all the participants.

POST EVENT REPORT

Name of the event : Facility management and safety measures training
 Date of the Event : 23-8-2017
 Organizing Department : IQAC
 Location of Event : APDCH lecture Hall 4
 Time : 12.00 pm to 2.00 pm
 Number of persons attended : 14
 Guest Speaker : Dr Kowselya MDS

SUMMARY

Occupational safety and health is the responsibility of each employee at APDCH. Facilities Management training develops guidelines to help department non-teaching staffs to comply with the occupational safety and health standards.

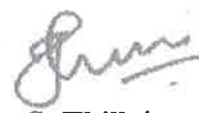

This help to provide proper guidelines to prevent workplace accidents. Under all circumstances, employees must be properly trained to perform their required tasks. These guidelines are to be used as building blocks for individual units to properly provide adequate safety and health protection for their workers.

Their purpose of the presentations was to create an overall awareness of the hazards of the job as well as to offer guidelines for safe work practices. The non-teaching staffs should review, be familiar with, and understand the information set forth in the guidelines.

Dr Kowselya speaker of the day, highlighted all guided required for APDCH and it was an interactive program.

POST EVENT REPORT

Name of the event	: Prostho Insight - 2017
Date of the Event	: 24.02. 2017
Organizing Department	: Prosthodontics
Location of Event	: Auditorium, APDCH.
Time	: 10.00 AM – 1.00 PM
Number of teachers attended	: 11
Guest Speaker	: Dr. Manohar, MDS Prof & HOD – Prosthodontics, IGIDS

SUMMARY

Totally, 45 delegates registered for Prostho insight-17 from various college across the state and the inaugural function commenced at 10.30 am. Our correspondent sir and Principal sir inspired us all with their speech and the session was taken over by our guest speaker.

We had lecture on management of skeletal malocclusion from 11 am till lunch. After that biomechanics in clinical orthodontics was the topic of discussion till 3.30 pm. Lectures were conducted by Dr. Manohar, MDS on the topic of "OVER DENTURES". This was followed by valedictory function.

Our guest speaker spoke about the importance of over dentures to the students. Patients treated with implant overdentures have significantly higher masticatory, functional and life quality scores than patients wearing conventional complete dentures. In addition, oral hygiene access is easier when compared to a fixed implant prosthesis due to the removable nature of the restoration. Students have acquired so much knowledge about the over dentures. Live demonstration of over denture procedures was given by the speaker and the students were enjoyed it thoroughly.

POST EVENT REPORT

Name of the event	: Oral & Maxillofacial surgeons day – 2017
Date of the Event	: 13.02. 2017
Organizing Department	: Oral & Maxillofacial Surgery
Location of Event	: APDCH ,Mini conference hall
Time	: 10.00 AM – 1.00 PM
Number of teachers attended	: 15
Guest Speaker	: Prof. Dr. M. F. Gaig, MDS (OMFS), Prof. Dr. Veerabahu, MDS Prof. Dr. Gokkulakrishnan, MDS (OMFS)

SUMMARY

The department of OMFS at Adhiparasakthi Dental College & Hospital conducted a program on Feb 13th 2017, International Oral and maxillofacial surgeon's day, organized by Prof. Dr. S. Gokkulakrishnan — Head of the department & Organizing chairman, Prof. Dr. M. Karthikeyan Organizing secretary, Dr. Suresh Kumar, Dr. Abishek R Balaji, Dr. Srinivasulu, Dr. Dhilleaswari AGS, Dr. Vinodhini.

The chief guests for the program were Prof. Dr. M. F. Baig, Saveetha Dental College & Hospital and Dr. Veerabahu, Professor & Head, Department of OMFS, Ragas Dental College & Hospital. The program was inaugurated by correspondent Dr. T. Ramesh & Principal, Prof. Dr. Thillainayagam.

The aim of the program was to create awareness about the Oral & Maxillofacial Surgeons and their contribution to the society. The invitation for the program was distributed to all colleges in Tamil Nadu. About 300 participants had registered for the program, which included participants in all category (i.e.) delegates, post graduates and undergraduates. All participants were awarded with a certificate and given uniform, a Coffee Mug, a OMFS Badge and a Key Chain as a awareness memento. The event consisted of three lectures, "Awareness & Scope of Oral & Maxillofacial Surgery — an overview" by Prof. Dr. Baig, "Cleft lip & Cleft Palate- Maxillofacial surgeon's perspective" by Prof. Dr. Veerabahu and "Cosmetology — New Emerging technology for Maxillofacial Surgeons" by Prof. Dr. S. Gokkulakrishnan, a quiz program for UG's and PG's followed by an awareness rally to create awareness amongst the public about Oral & Maxillofacial Surgery. Pamphlets regarding maxillofacial procedures were also issued to the public during the rally. Overall, the program was successful and was well received among staffs and students.

POST EVENT REPORT

Name of the event :Orthosearch - 2017
 Date of the Event : 18.01. 2017
 Organizing Department :Orthodontics
 Location of Event : Auditorium, APDCH.
 Time :9.30 AM – 3.30 PM
 Number of teachers attended :11
 Guest Speaker : Dr. K. Sadasiva Shetty, MDS

SUMMARY

Totally, 67 delegates registered for ortho search"17 from various college across the state and the inaugural function commenced at 9.30 am. Our correspondent sir and Principal sir inspired us all with their speech and the session was taken over by our guest speaker.

We had lecture on Management of skeletal malocclusion from 11 am till lunch.After that biomechanics in clinical orthodontics was the topic of discussion till 3.30 pm. Both lectures were conducted by Dr. K. Sadashiva Shetty, MDS. He spoke on how a simplified approach to biomechanics makes its principles and their practical applications easier to understand and employ.Descriptions of orthodontic treatment planning and biomechanics allow the staffs to apply specific mechanisms to specific problems.Discussions of the use, selection, and properties of orthodontic wires were presented along with the latest advances.Numerouskey points showed how simple changes in the arch wire bending can improve the quality of tooth movement.Coverage of non-extraction treatment modalities explained how to achieve predictable results with headgears, Herbst appliances, memory alloy springs, and other methods. the program clarified important information and techniques for staffs to find the guidance they needed. This was followed by valedictory function.

Finally, we started our quiz program "ortho quiz" with the preliminary round and five teams were selected to contest in the following rounds. At the end the of the program first prize of Rs 10,000 was awarded to Government Dental College chennai, second prize (5,000 RS) and third prize (3000 RS) to SRM team A and BRamapuramrespectively. We successfully came to the end of our orthosearch 17 with National Anthem.

POST EVENT REPORT

Name of the event	: Personal Hygiene awareness Program
Date of the Event	: 4-1-2017
Organizing Department	: IQAC
Location of Event	: APDCH lecture hall 4
Time	: 1.00 pm to 4.00 pm
Number of persons attended	: 20
Guest Speaker	: Dr Gokul MDS

SUMMARY

Healthy staff is a happy and productive person, and that is a goal for every organization.

Non-Teaching staff however have a duty to look out for the safety, well-being and ensure they are healthy. This in turn promotes the Institution's professional image and ultimate success, which in turn is beneficial to them.

It begins with the good personal hygiene, cleanliness and professionalism of the staff that work for them and in particular the Front-Line Staff and others dealing with the patients in the Hospital.

Health and Hygiene is however, equally important for the employees having to work together, interact with each other and often closely confined. It makes the working environment pleasant, minimized transmission of infections and diseases and ultimately contributes to the happiness and motivation of the staff.

The program was broken into 3 Module for ease of learning by Dr GOKUL- Basic Health Standards, Personal Hygiene and Dress Code and Institution Policies. These Modules were elaborated to all non-teaching staff and was very useful to them.

It was an interactive session and feedbacks were collected at the end of the program.

POST EVENT REPORT

Name of the event :MBT Mechanics CDE program Orthodontics
 Date of the Event :22-12-2016
 Organizing Department :Orthodontics
 Location of Event : Auditorium, APDCH.
 Time :9.30 AM – 3.30 PM
 Number of teachers attended :10
 Guest Speaker :Dr. Janardhanan, MDS; Dr. Ratna Padmanabhan, MDS

SUMMARY

Dr.Janarthanam and Dr.Ratna mam gave knowledge able lectures and hands on demo on various loop mechanics and they had one to one discussion with all delegates and all the delegates were enthusiastically participating in the discussion and Hands on program. Dr.Sudhakar sir being the chief moderator helped our guest speakers in making all arrangements .Our HOD allotted Dr.Ramya ,Dr.Nivedita,Dr.Preethi as internal moderators and Dr.Vijayakanth, Dr.Dhivya, Dr.Santhanakrishnan as external moderators. As per schedule and as per HOD Guidance everything went on well.

At the end of Day 1 due to the enthusiastic participation of the delegates our HOD decided to give certificate of appreciation and prizes for the best wire bending done by the delegates .All the prizes are sponsored by our Head of the Department . At the end of day 1 we ensured that hospitality and accommodation were properly taken care for the delegates,our administrative officers helped out for the same.

With the successful day 1 of our workshop we started our day 2 by 8.30 in the morning and session went on very well, we were more organized on day 2 and we made it successful. By 3.30 pm we had our valedictory function and it was presided over by our Principal .Certificate of participation was distributed to all participants by guest speakers and principal and all delegates were individually appreciated. Prize distribution for prize winners were announced. First prize won by Dr.Sruthipradeep from Meenakshi ammal Dental College.Dr.Sharmila and Dr.Ananthakrishnan received second and third prize from JKKN Dental college respectively. Finally, an end notes of appreciation by our Guest speakers and Principal encouraged us a lot and we ended up with a national anthem.

Guest Speaker	: DrThiligavathy MDS

SUMMARY

The IAEA's safety services encompass design, siting and engineering safety, operational safety, radiation safety, safe transport of radioactive material and safe management of radioactive waste, as well as regulatory matters and safety culture in organizations.

These safety services assist the non-teaching staff of OMR Department in the application of the standards and enable valuable experience.

Dr Thillagavathy Vice Principal, an eminent speaker in Oral medicine and Radiology field presented an objective for decisions concerning safety and the decision makers must also make informed judgements and must determine how best to balance the benefits of an action or an activity against the associated radiation risks and any other detrimental impacts to which it gives rise.

Dr Gayathri of our college gave vote of thanks and the implementation of radiation safety measures framed for the department was discussed elaborately with IQAC chairperson DR Sudhakar. The nonteaching staffs were benefited by this session

SUMMARY

A Review on OOO Conference

The departments of Oral & Maxillofacial Surgery, Oral Medicine & Radiology, Oral pathology & Microbiology, APDCH conducted a conference on 01.11.2016. The committee constituted of Dr. Thilagavathy, Prof & Head, Department of Oral Medicine & Radiology — Chairman, Organizing Committee, Dr. Alex K Varghese, Prof & Head, Oral Pathology & Microbiology — Chairman, Scientific Committee and Dr. Gokulakrishnan, Prof & Head, Department of Oral Maxillofacial Surgery — Chairman, Registration Committee.

The guest faculty for the conference were Dr.T.Saravanan, Head , Department of Oral Medicine & Radiology, KarpagaVinayaga Institute of Dental Sciences, Prof. DR. Jimson, Head, Department of Oral Maxillofacial Surgery, Tagore Dental College & Hospital & Prof.Dr.Shamala, Head, Department of Oral Pathology & Microbiology, Asan Memorial Dental College & Hospital. The program was inaugurated by our Correspondent, Dr.T.Ramesh.

Following welcome address by Principal & inaugural ceremony our guests gave lectures on topics : Clinical manifestations & investigations of vascular lesions, Management of Vascular Lesion and Overview on histopathological aspects of oral vascular neoplasms.

About 370 participants had registered & attended the conference, which included participants in all category i.e., delegates, post-graduates & under-graduates from our college & other colleges across India.

Another highlight of the conference was the active participation of UG students in E-Poster presentation & PG students in paper presentation. A total of 13 E-Posters and 6 papers were presented before the judges of all 3 departments of various colleges across Tamil Nadu & winners declared following assessment by the three judges.

SUMMARY

The departments of Oral pathology & Microbiology, APDCH conducted a CDE programme on 26.08.2016. The guest faculty for the CDE programme is Dr. Sandhya Arunkumar, MDS. An eminent Oral Pathologist from Chettinad Dental college & Research Institute. The programme was inaugurated by our Correspondent, Dr.T.Ramesh. Dr Rajeshwari MDs was invited as chief guest.

Following welcome address by Principal & inaugural ceremony our guests gave lectures on topics : Clinical manifestations & investigations of premalignancy, Management of Premalignant Lesion and Overview on histopathological aspects of oral premalignant neoplasms. Recent advances in techniques for detecting lesions and predicting their progression or recurrence were reviewed here. The speaker highlighted on adjuncts for detection of lesions and selection of biopsy sites include vital tissue staining (with toluidine blue) and exfoliative cytology. Advances in diagnosis and staging at the molecular level are expected to affect choice of treatment and patient outcomes. Oral Pathologist should be aware of these advances in the evaluation and diagnosis of oral premalignant lesions and squamous cell carcinoma were key points of the program.

About 65 participants had registered & attended the conference, which included participants in all category i.e., delegates, post-graduates & under-graduates from our college & other colleges.

POST EVENT REPORT

Name of the event	: Instruments drying, washing and packing- sterilization
Date of the Event	: 4-8-2016
Organizing Department	: IQAC
Location of Event	: APDCH lecture Hall 4
Time	: 1.00 pm to 3.00 pm
Number of persons attended	: 9
Topic	: Awareness of the disinfection and sterilization
Guest Speaker	: Dr Vijayalakshmi

SUMMARY

IQAC conducted a session on Awareness of the Instruments drying, washing and packing and sterilization policy among non-teaching staff and updating their knowledge in basic principles.

Dr Vijayalakshmi MDS, presented lecture on lack of proper sterilization method during a process would lead to increased infection and unreliable result.

The non-teaching staffs working in department are usually not aware and the processes used in the clinical department are also diverse, it is therefore necessary that non-teaching staff takes special measures to train themselves, depending on type of tasks they work on. These trainings should be repeated at regular intervals or be updated. The periodic evaluation of non-teaching staff's knowledge on the principles of sterilization in the department may help to prevent probable contamination and damage to life and properties.

The standard guidelines for working with infectious agents have been compiled and are made accessible to everyone by the IQAC coordinator Dr Devi. M

SUMMARY

The department of OMFS at Adhiparasakthi Dental College & Hospital conducted a program on JULY 7TH organized by Prof.Dr.S.Gokkulakrishnan — Head of the department & Organizing chairman, Prof.Dr.M.Karthikeyan Organizing secretary, Dr.Suresh Kumar, Dr.Abishek R Balaji, Dr.Srinivasulu, Dr.Dhilleaswari AGS, Dr.Vinodhini.

The chief guest for the program was Dr. R. Neelakandan – Oral and maxillofacial cosmetic surgeon. The program was inaugurated by correspondent Dr.T.Ramesh& Principal, Prof.Dr.Thillainayagam.

The aim of the program was to create awareness of cosmetic maxillofacial surgical procedures. The invitation for the program was distributed to all colleges in Tamil Nadu. Participants 80 had registered for the program, which included participants in all category (i.e.) delegates, post graduates and undergraduates. All participants were awarded with a certificate. The event consisted of lectures on cosmetic surgeries in the head and neck region and also constitutes of laser surgical procedures done in a clinical setup. Pamphlets regarding maxillofacial procedures were also issued to the public during the rally after the program. Overall, the program was successful and was well received among staffs and students.
