PROGRAM OVERVIEW

Department of Pedodontics & Preventive dentistry, APDCH had been conducting this successful milestone program "PEDOFEAST" since six years. For this current year it is taking a step ahead to enlighten us with Dental treatment in children, dental management for children had taken a massive evolution in newer concepts and techniques aimed to deliver a better practice, so as health care providers and future dentists its our duty to update themself to gain adequate knowledge in the respective areas.

Program Overview

TMJ ARTHROCENTESIS

Master The Joint With The Masters

[TMJ] is a unique joint in the human body with synchronised function of both the joints resulting in complex micro and macro movements of the associated musculoskeletal system.

With emerging life style changes, individuals are widely affected with disease of temporomandibular joint and it warrants a patient specific management protocol. To diagnose, treat and rehabilitate these patients we require sound knowledge and understanding of the underlying anatomy and dysfunctions of the joint.

This program focuses on deep understanding of the joint system and various treatment options which are available and can be clinically applied. TMJ arthrocentesis is time tested minimally invasive treatment method for anteriorly displaced disc. Although simple technique to understand, practical application needs ~~in depth understanding of~~ **Knowledge of** when to do, when not to do, outcome of treatment and follow up phase. As we dentist are the authoritative people to treat such disease, this program opens up venue for gaining knowledge from the current masters of the temporomandibular joint rehabilitation.

Prof. Dr. T. N. Saraswathi

Graduated from Madras Dental College under the guidance of Prof. Dr. K. Ramachandran and Dr. R. Viswanathan M. Sc Oral Pathology under the guidance of Prof. Kramer, London. She had her training for oral cytology in Tata Institute of Fundamental Research, Mumbai. She conducted Oral Cancer Control Programme in Kanchipuram. She worked as post graduate teacher in various institutions in Tamil Nadu and in Andhra Pradesh. She contributed to national and international publications and motivated postgraduate students and young oral pathologists to undertake research and publications. She is one of the past presidents of IACMP (associated with the life time achievement award by IACMP and by Governor of Tamil Nadu on behalf of Dr. SRM medical University in 2012). She started her career as a dental surgeon in 1965 and privileged to be the first woman dental surgeon to hold the post of principal in charge of the same institution.

Prof. Dr. J. Thanks

Currently the Professor of Pathology, working in Dr. Ramachandran Medical College and Research Institute, Chennai. She is also a Senior Consultant Pathologist at Dr. Ramachandran Medical Centre, a NABH accredited hospital with a NABL Accredited laboratory. She graduated her MDS in the year 1986 from Government Medical College, Tamil Nadu, M.D from University of Madras, Chit town, Tamil Nadu and Post doctoral certificate (Diploma) in Laboratory Medicine from Indian College of Pathologists. She is a Fellow of Indian College of Pathologists (ICP Path). She is a Member of the National Academy of Medical Sciences, India and various other scientific bodies. She has many presentations in Conferences and publications in indexed journals in both National International. She has been a Faculty Resource person and chairperson in various CME's, Conferences, Workshops on Pathology and Medical Education.

Prof. Dr. Elizabeth Joshua

Working as professor in the Department of Oral Maxillofacial Pathology at Rajas Dental College & Hospital. An Academician of excellence and has an experience of 20 years in teaching undergraduate and postgraduate. Editor for Journal of Maxillofacial Pathology for 2 consecutive years (2008 - 2012). Her chief accomplishment was in getting our Association Journal (Journal of Oral and Maxillofacial Pathology) - Indexed in PubMed Online library of JCI as treasurer from 2008 - 2013. Organizing treasurer for the 29th IACMP and 11th International Association of Oral and Maxillofacial Pathologists Conference 2015 hosted in Chennai. She has various publications in PubMed indexed journals and has presented many scientific deliberations at both the National and International level to her credit. Her specialty focus in Oral Pathology is in the field of Oral Soft Tissue Histology. She has contributed to various workshops on Research Methodology as a faculty in various institutions. Her guided postgraduate students in their dissertation work at topics ranging from basic histopathology to molecular biology.

Prof. Dr. T. Booban

Professor in the Department of Oral Maxillofacial Pathology at Rajas Dental College & Hospital. An Academician of excellence and has an experience of 35 years in teaching undergraduate and postgraduate. He has received Dr. Amritha Jugal Research Fellowship award in 2017, Fellow and D.Dent award in 2013 in USA. He has completed his fellowship and awarded by IACMP in 2014. He has contributed to 70 publications in PubMed indexed journals at both the National and International level to his credit. He has presented many scientific deliberations at the National level forums in Research methodology and scientific publications. He has been selected as the former member of World Association of Medical Editors. He has served as EC member in IACMP, General Inves Member in IACMP and Associate Editor for JOMFP from 2008 to 2012. Currently he is the co- editor of JOMFP. He is serving the Board of peer review for various journals. He has authored 7 text books and is the chief mentor of IYAA PEARL - a blog in oral histology and oral pathology. His guided postgraduate students in their dissertation work at topics ranging from basic histopathology to molecular biology. Associated with Rajas Dental and Government Hospital.

Facts About Orthodontics

Orthodontics is the branch of dentistry that specializes in the diagnosis, prevention and treatment of dental and facial irregularities. The technical term for these problems is "malocclusion," which means "bad bite." The practice of orthodontics requires professional skill in the design, application and control of corrective appliances, such as braces, to bring teeth, lips and jaws into proper alignment and to achieve facial balance.

Program Overview

SAKTHI –OM FACE is a dedicated state level Training programme conducted on behalf of Adhiparasakthi Dental College & Hospital, Oral & Maxillofacial Surgery Team. It will be conducted on yearly basis benefitting PG Students and Delegates.

Atrophic Maxilla Rehabilitation is a challenge and requires specialised training to master the skill. This Program focuses on Extra Maxillary Zygoma Implant Placement with Lecture and Hands on Workshop. Both Surgical & Prosthetic Rehabilitation will be discussed and demonstrated in detail.

We are proud to say this would be first such workshop conducted in an institution targeting Post graduate students and Young Practitioners

ORTHOSEARCH.

"Orthosearch" is a tailor made programme stitched meticulously by keeping the needs of postgraduates in mind. It was conducted successfully as "Orthosearch 2K-16", "Orthosearch 2K-17", with many PG's participated from various prestigious institutions.

"Orthosearch 2K-18" is planned to focus the initial hiccups that a PG will encounter, while entering in to orthodontic clinic. The Lectures with live demonstration will teach a PG.

- To do a proper functional examination of a patient, how to record construction bite (Live Demo) with proper justification of appliance of choice.
- When? Where? How? orthopaedic appliance will be used with basic bio mechanics.
- Steps and procedure to be followed for successful bonding with special consideration on bonding modifications & bonding errors.

Finally, understanding of the subject will be judged by "Master Quiz" based on the topic covered on the day...

KEYNOTE SPEAKERS

DR. ALFRED WENDELL FOLTZ, DMD was the President of American Academy of Gold Foil Operators in 2016. He underwent undergraduate training at University of Oregon, School of Dentistry in 1977 and finished in the top 10% of the graduating class. He received the "Outstanding Achievement in Dental Studies" Award from International College of Dentists in the same year. He also received the prestigious "Commissioned Officer Award for Superior Service" by the U. S. Public Health Service. He had visited India in March 2016 to inaugurate the Indian Academy of Gold Foil Operators and to conduct the First International Certificate Course in Gold Foil Restoration at Chennai, India. He visited India again in 2017 to conduct an Advanced course in Gold Foil Restorations and lecture at the first Ever World Summit on Gold Restorations. He was also the Co-Organising Chairman of World Gold Restoration Summit. He was awarded the prestigious 'Distinguished Member Award' in 2016 by the AAGFO.

DR. WARREN K JOHNSON, DDS graduated from the University of Washington School of Dentistry in 1965. He joined the US Army in 1966, retiring from the reserves with the rank of Colonel in 1998. He was in private practice for forty-two years. He has been president of AAGFO, Operative Academy, R. V. Tucker Academy, and Associated Ferrier Gold Foil Study Clubs. He has taught seven operating cast and direct gold study clubs for over twenty years and has been a guest mentor to many others. He has also taught and lectured extensively on cast gold in North America, Europe, Asia and Africa. He conducted the First International Certificate Course in Gold Foil Restoration at Chennai, India.

DR. PRABHAKAR JOSEPH, MDS is presently the Head of Department of Conservative Dentistry at Adhiparasakthi Dental College. He is the Founder President of Indian Academy of Gold Foil Operators and the first Indian to become an active member of the American Academy of Gold Foil Operators. He was trained exclusively by AAGFO faculties in the United States in gold foil restorations. He organised the first International Certification course in gold foil in India by AAGFO faculty in March 2016. He has successfully conducted five batches of Gold foil restoration certificate course in Chennai. To add a feather to her cap, he operated at the Annual Meeting of the prestigious AAGFO at the University of British Columbia, Vancouver, Canada. He has delivered lectures with a demonstration at Dubai, Malaysia and Chennai. He was the Organising Chairman of the first ever world Summit on Gold Restorations in Chennai. He is actively performing gold restorations in his clinical practice.

Facts About Orthodontics

Orthodontics is the branch of dentistry that specializes in the diagnosis, prevention and treatment of dental and facial irregularities. The technical term for these problems is "malocclusion," which means "bad bite." The practice of orthodontics requires professional skill in the design, application and control of corrective appliances, such as braces, to bring teeth, lips and jaws into proper alignment and to achieve facial balance.

Guest Speaker

Dr. Sangeetha Duraisamy

Completed her BDS from JKK Natarajah Dental College in 2001 and MDS from Tamil Nadu Government dental college in 2005 She is currently working as a Associate professor

in the Department of Orthodontics SRM dental college, Ramapuram, Chennai. A member in the various professional bodies, after serving a Tenure of EC member currently she is the CDE Co-Ordinator of madras orthodontic study group. She has several publications to her credit in various national and international journals and contributed chapters in text books published by reputed publishers like Elsevier and Wolters - Kluwer Lippincott. She widely presented papers in various national and international conferences as a student and delegate and currently her research work won the best paper award in the world cleft lip, palate congress and craniofacial congress in October 2016. She has delivered guest lectures in various state and national dental conferences. Her area of interest lies in Research Methodology, Surgical orthodontics involving minor and major surgical procedure including management of cleft lip, cleft palate and craniofacial anomalies.

LECTURE

10.00 am -1.00 pm **Critical appraisal of scientific literature - The need of the hour**

- Dr. Sangeetha Duraisamy

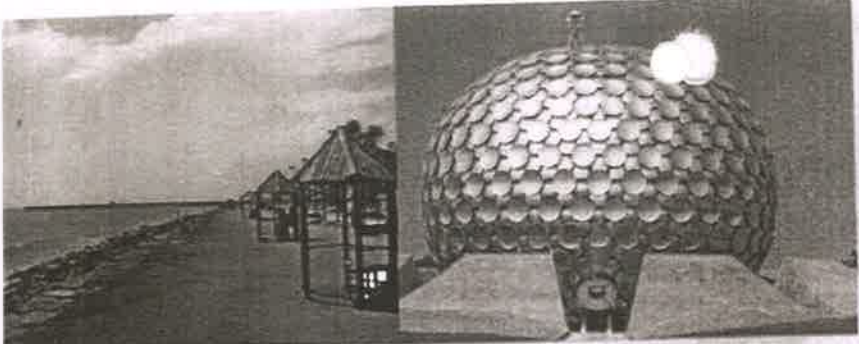

In the era of evidence based dentistry it is highly important for a clinician to evaluate the appropriateness of any published research before applying its results as a guidance to clinical - decision making process. Identifying the strength and weakness of a journal article in order to assess the usefulness and validity is a basic skill that every postgraduate student should acquire. Being able to critically appraise articles will enable them to design a proper study and write better papers while submitting the work to a journal for publication. The lecture aims at providing a step wise approach to critical appraisal that postgraduate students can use on a routine basis .

1.15 pm - 2.00 pm Lunch Break

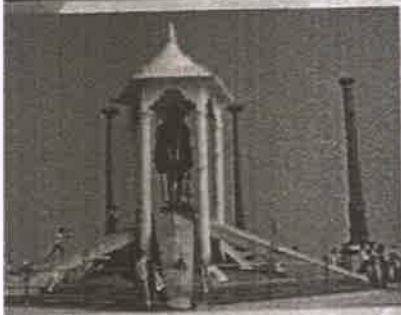

2.00 pm - 3.00 pm Panel Discussion

3.00 pm - 3.30 pm Valedictory Function & Prize Distribution

Puducherry is the Capital of Union Territory. It lies on the east coast about 162 kms south of Chennai (Madras) located on the Coromandel Coast of the Bay of Bengal.

The colonial buildings, some of which date back to the 18th century, stretch along a grid of clean straight streets which

include French institutions, Hotels, Guest Houses, Restaurants, Boutiques and Private including the sprawling premises of the famous Sri Aurobindo Ashram.

Set beaches and peaceful in the north and south balance the town's everyday life.

Some destinations, namely the international of Unity, the imposing of the Fort, the holy temple

of Kanchipuram, Thiruvannamalai and Chidambaram, the heritage sculptures magnificent rock temples of Mamallapuram (Mahabalipuram)

Puducherry is best accessible by road from Chennai, Bangalore and even from

Puducherry has a wide choice of hotels to choose from: Beach resorts for tourists families, Heritage hotels for those who want to experience something out of the ordinary, high class commercial hotels for the corporate visitors and the neat Ashram Houses for the spiritual seekers.

Orthodontic legends have quoted days back 'Good wire benders would be good orthodontist' The National Integrated Typhodont Workshop organized in various parts of India had been a grand success. This year the National Integrated Typhodont Workshop is to be held for the 1st time in Tamilnadu. This 3 day intercollegiate program will be conducted in association with Indian Orthodontic Society Academic Council to benefit PG Students and Orthodontists. We may forget what we heard, we might remember what we see, we will understand what we do. Hope everyone goes back home with enriched skills.

About College

Adhiparasakthi Dental College & Hospital is situated in the temple town of Melmaruvathur, well connected to both Chennai and Pondicherry. The Dental Hospital was started in 2003 which later evolved into a Teaching Institution in 2005. The college was started with an aim to impart knowledge, values, discipline and culture to the student. 'Service Towards Humanity' has been the primary motto of the Institution. Apart from training students to become good Dental Professionals they are also groomed to become responsible Citizens.

The institution is privileged to possess good infrastructure, library and equipments with modern state of technologies. Students are encouraged to do research and utilize the facilities available and the institution without any constraints. Our institution has been blessed to receive many hundred of patients per day; 'Experience is the Best Teacher' this heavy inflow of patients helps student to gain wide knowledge and experience. The management and faculty members encourage and train students to become good professionals who are capable of treating patient independently and confidently with ethical values and beliefs.

Guest Speaker

DR. K. SADASHIVA SHETTY

Dr. Shetty graduated from Govt. Dental College, Madras in 1976 and got his M.D.S. (Orthodontics) in 1980 from the same institution. Presently he is the Principal, Professor and Head, Department of

Orthodontics and Dentofacial orthopedics at Bapuji dental college and hospital, Former Dean, faculty of dentistry, RGUHS Bangalore and FDSRCS (Edinburgh). He maintains a private practice exclusive to Orthodontics at Davangere, Karnataka, India.

Dr. Shetty has 36 years teaching experience to his credit, which include 30 years of teaching postgraduates. He has been a Guest Speaker at various national & international level conferences and also participated in congress meet held in Dubai, Singapore, Muscat, Iran and USA. He has extensively participated in various University deliberations and has published articles in various International and National journals and contributed to text books of Pediatric dentistry and Orthodontics. He has conducted and also participated in many continuing education programs and Hands on courses in Growth modulation, Biomechanics, MBT Mechanics and Surgical Orthodontics. Dr. Shetty has held the post of president of the Indian Orthodontic Society and is a Diplomate of Indian Board of Orthodontics. He was also the past Director and Chairman of Indian Board of Orthodontics.

Faculty

Dr. P. Janardhanam, completed his BDS in the year 1983 & MDS in the year 1987 from Government Madras Dental College. He is renowned clinician with 31 years of experience. He is currently Professor in the Department of Orthodontics, Sibar Dental College, Guntur. He has been instrumental in conducting various conferences and founder member treasurer of the Madras Orthodontic study group and has participated in clinical course conducted in India and abroad. He was the associate editor of JIOS. He has been an ardent clinician throughout his tenure and has shown immense interest in newer concepts and changing trends in

clinical orthodontics. His major area of concentration is currently on MBT mechanics, Temporary anchorage device and newer clinical innovation in surgical orthodontics which has brought about a revolution in day to day orthodontic practice. He has presented papers and guest lectures in local, state, national international & speciality conferences. He was the past president of the Madras branch of the Indian Dental Association.

Dr. Ratna Padmanabhan, completed her Bachelors in Dental Surgery in 1991 from Annamalai University. She completed her Master in Dental Surgery with specialization in Orthodontics in 1997 from Tamil Nadu Government Dental College and Hospital under the Dr MGR Medical university. thereafter she joined as a teaching faculty in Meenakshiammal Dental College, and at present working as a professor there. She worked as a consultant in Ministry of Health in Kuwait from 2002-2004. She has been practising dentistry from 1991 till date at Anantan dental surgery, Annanagar, Chennai. She has numerous, National and International

publications and presentations to her credit.

Programme Schedule

DAY 1

8.00 - 9.00am

- Registration

9.00 - 9.30am

- Inauguration

SESSION 1

9.30 - 11.30am

- Introduction to the various fine points in the PEA system with emphasis as to how to get the best of the in-built features and at the same time to avoid the pitfalls.
- Frictionless mechanics demystified through clinical cases.

11.30 - 12.15pm

- Hands-on session with multiple demonstration with each candidate assisted for a tear drop loop wire bending on a typhodont.

12.15 - 1.00pm

- Lunch break

SESSION 2

1.00 - 2.00pm

- Understanding friction mechanics through a series of clinical cases.
Hands-on session with multiple demonstration with each candidate assisted for pre-formed posted arch wire bending on a typhodont.

2.00 - 3.00pm

- Atypical extraction displayed through various extraction combinations, with special emphasis on a class II finish.

DAY 2

SESSION 3

9.00-11.00am

- Intrusion simplified through different modes and different clinical situation.
- 3-piece intrusion arch - wire bending exercise.

11.00-12.00pm

- Non -extraction treatment-A display of interesting clinical cases which would be helpful to the clinician.

12.00-1.00pm

- Lunch break

SESSION 4

1.00-2.00pm

- Individual Torquing Auxillary-An useful adjunctive in continuous mechanics wire bending in the typhodont.

2.00pm-2.45pm

- A few interesting cases will be projected according to the time availability.
- Question and answer session on the various topics covered.

2.45pm-3.15pm

- Certificate Distribution
