POST EVENT REPORT

Name of the event	: Sensitization of Internal DEU Members
Date of the Event	: 26th August 2021
Organizing Department	: IQAC
Location of Event	: APDCH, Mini conference hall
Time	: 02.00 to 03.00 pm.
Number of teachers attended	: 6
Guest Speaker	: Dr. Bharath

SUMMARY

The DEU team members involved in the review of previous year proceedings and the training for the academic year 2020-21. The activities for the next academic year 2021-22 were discussed among the DEU members. The roles and responsibilities for the same were actively discussed by the coordinator. The proceedings of the previous year were found to be satisfactory and the training was found to be effective from the teaching and learning aspects for the newly joined faculties.

The plan of action and the future targets were discussed and DEU sensitization for principal involving various dental colleges in association with Rajiv Gandhi University was conducted and attended by the DEU chairperson and principal on 12-07-2021 through virtual platform and the proceedings and core areas were explained by the coordinator.

The updation of knowledge through interaction with JIPMER, CMC Vellore, Vinayakamission University, Sree Ramachandra University, M.S. Ramiah University, IGIDS and Venkateshwar dental college were discussed. The updation of manual for the functioning of DEU training unit was planned and responsibilities were allotted to the team members enabling them to outsource the training program were discussed by the coordinator.

Date of the Event	: 2 April 2021
Organizing Department	: IQAC
Location of Event	: APDCH, Mini conference hall
Time	: 01.00 to 03.00 pm.
Number of teachers attended	: 16
Guest Speaker	: Dr. Bharath and Dr. Sumanth

SUMMARY

Key process indicator training for teaching faculties as per the training calendar was conducted. The Key process Indicators, legal tracking and patients satisfaction index and the insight to role of key process indicator related to academic and clinical aspects was spoken by Dr. Bharath and Dr. Sumanth. The session helped the teaching staff to understand how our organization, department and institution is performing and allows them to understand if they are headed in the right direction with our strategy.

For productive teaching-learning process the staff must have some performance indicators. In the session some essential performance indicators of the staffs had been discussed like designing learning experiences for students, knowledge and understanding of subject, strategies for facilitating learning, interpersonal relationship, professional development and attendance. Our teaching staff gained a wide knowledge to improve their quality and calibre in delivering the excellent dental education. Training attendance was collected. 16 Faculties participated in the training followed by training feedback collection.

Organizing Department	: IQAC
Location of Event	: APDCH, Mini conference hall
Time	: 01.00 to 03.00 pm.
Number of teachers attended	: 32
Guest Speaker	: Dr. Varsha Murthy

SUMMARY

The program was conducted as per the calendar scheduled on 25.03.2021 in mini conference hall between 01.00 pm to 03.00 pm. The program started with the blessings of Almighty aruthiruAmmaavargal. The training was conducted by dental education unit of APDCH along with IQAC on the topic "What dentist don't get to study in dental school" by Dr. Varsha Murthy, Vice principal, Venkateshwara dental college, Pondicherry.

The lecture was so useful to learn the importance of communication skills in dental teaching and clinical practice. She insisted the importance of skills-based communication training to be better prepared for clinical practice. This will facilitate to encounter with patient anxiety, recognize ethical issues, and identify important psychosocial factors leading to more precise diagnosis and treatment, thus improving patient satisfaction and safety.

It is imperative to be able to communicate well with patients, to efficiently collect and convey information, use effective listening skills, manage patient emotions delicately, and express empathy, rapport, ethical consciousness, and professionalism as evidence-based presentation which gave an insight to the importance of communication skills in patients management and dental education. Almost 50 participants were present and feedback was collected from the participants.

POST EVENT REPORT

Name of the event	: Library Utilization training with E-Governance
Date of the Event	: 16/03/2021
Organizing Department	: IQAC
Location of Event	: APDCH, Mini conference hall
Time	: 1:00-3:00pm
Number of teachers attended	: 6
Guest Speaker	: Dr.V.Sudakar

SUMMARY

Library Utilization training with E-Governance was conducted by IQAC and the chairperson Dr.Sudhakar presented on how we can facilitate in improving transparency, participation providing speedy information, dissemination, improving administrative efficiency in all the aspects of education. He emphasized how a digital library could provide access to an unlimited number of copies at the "touch of a button".

A text or monograph, which is available in an electronic form that can be obtained electronically, with the help of ICT it is also easy to carry large number of e-books in pocket PC at one time. The main benefit of digitization service is that it cuts down the requirement of papers, saves library space and cuts down the time needed to process the same information. With this service, we can convert the physical data in form of papers, thesis, research papers, magazines, books, records, forms, mark sheet, survey data and others into the digital format which is readable by all computers and is easily processed by staffs.

He discussed about Mail send to all departments based on DCI requirement for purchase of book for the academic year 2020-21, also about the necessity of journals purchase for the academic year.

Discussed about needs of external resources, infrastructure, the learning environment in library and about access enable for OPAC, books reservation and message alert facility for circulating in CIS portal to all staffs.

POST EVENT REPORT

Name of the event	:ISO general awareness training to new faculties
Date of the Event	: 10-03-2021
Organizing Department	:IQAC
Location of Event	: APDCH, Mini conference hall
Time	: 1:30 – 3:00 pm
Number of teachers attended	: 6
Guest Speaker	:Dr.N.Bharath

SUMMARY

As per the training calendar ISO general awareness training was conducted in person by ISO consultant Mr. Parivel from Vishnu Consultancy conducted in Mini conference hall and the training organized by Dr.N. Bharath, Management Representative for newly joined teaching staff of APDCH.

The session insisted on better understanding of institutional objectives and activities along with policy (including mission and vision), enhanced responsibility by providing inclusive and equitable quality. Dr Bharath spoke on implementation of ISO as consistent processes and evaluation tools to demonstrate and increase effectiveness and efficiency which will lead to increased credibility to the organization and a culture for improvement in stimulation of excellence and innovation. Management of the ISO processes and the system as a whole can be achieved using the PDCA cycle.

The training activities focused on the transfer of knowledge and refinement of skills needed to meet the requirements associated with the development, production and dissemination of International Standards.

Training attendance was documented alongside the training Questionnaire and feedback was collected.

Time	: 11:30 am – 12:30 pm
Number of teachers attended	: 12
Guest Speaker	: Dr.R.Ramya

SUMMARY

IQAC along with the Facility Management & Safety Committee jointly organized a fire drill training program on 09.03.2021 in Mini conference hall for teaching faculty and students. This Fire Safety Training module was designed to teach the staffs about preventive measures that will eliminate or minimize causes of fire or fire hazards in the workplace, and to teach them proper emergency and evacuation procedures in the event of a fire.

The event report follows: The training was initiated with an introduction and Pre-drill briefing by Dr.Ramya. The goals & Objectives were explained followed by demonstration of exit plan by Dr.Anandadevi. The teaching staff were taught to execute PASS code by Dr.sumanth and volunteers were encouraged to have a hand on experience to extinguish fire in case of an emergency. The program provided staff with information and guidelines which will assist in recognizing, reporting and controlling as well as eliminating the causes of fires and fire hazards.

Feedback of the training was collected through Google forms.

Organizing Department	: IQAC
Location of Event	: APDCH, Mini conference hall
Time	: 1:00-3:00pm
Number of teachers attended	: 23
Guest Speaker	: Dr.Bharath.MDS

SUMMARY

Insight to OSPE and OSCE training program was conducted on 25.02.2021 (Thursday) by Dr.Bharath MDS. The program gave a detailed knowledge regarding the novel teaching methods. It gave a in depth knowledge of the teaching and assessing methods namely OSPE and OSCE. The teaching faculty attended the program and had a discussion with the speaker.

The presenter spoke on how OSPE/OSCE should be designed in such a way that it assesses the skills with validity. It promotes critical thinking among students enabling them to work on the competencies for which they would be assessed upon. This critical analysis, in turn, results in students weighing their strengths and weaknesses. Although, OSPE and OSCE are much better ways of assessing the competencies of dental students than the conventional examinations, meticulous care must be given to the designing of the respective OSCE and OSPE to avoid multiple biases. This training program assured to improve the quality of our teaching faculty to give the best education to our students.

Name of the event	: Code of Ethics training program
Date of the Event	: 17-02-2021
Organizing Department	: IQAC
Location of Event	: APDCH, Mini conference hall
Time	: 2:00-3:00pm
Number of teachers attended	: 5
Guest Speaker	: Dr.V.Bhaskar, MDS, D.MLE, D.FO, PhD, RMDCH.

SUMMARY

Code of Ethics program was organized by IQAC on 17.02.2021 between 2.00pm to 3.00pm. Principal Prof.Dr.VasanthaKumari presided over the event.Dr.V.Bhaskar, MDS, D.MLE, D.FO, PhD, Professor& Head, Rajah Muthiah Dental College & Hospital was invited as the guest speaker.

Speaker Introduction was done by Dr.R.Ramya, Guest speaker delivered a lecture on the topic "DENTAL ETHICS AND JURISPRUDENCE"

The do's and don't's in an ethical dental practice and mustknow in the dental jurisprudence with special emphasis on Negligence were highlighted by the speaker. An ethical dilemmaoccurs when there is a conflict between moralprinciples. The capability to solve ethicaldilemmas is acquired from the individual'sprogression through levels and stages of moraldevelopment and also by following these ethicalprinciples in our day to day practice.

Principal Prof.Dr.A.VasanthaKumari shared a few words that the staffs should be able to use the code of ethicsdeveloped by our profession as a guide for thedecisions pertaining to practice and renderquality care to our patient which is ethicallyacceptableand awarded the E.Certificate to the speaker. The program concluded with a vote of thanks by Dr.Kalaivani..

Feedback was collected through google form and certificate of participation was sent to all the participants.

Location of Event	: APDCH, Mini conference hall
Time	: 1:30-3:00pm
Number of teachers attended	: 16
Guest Speaker	: Dr.Sunitha

SUMMARY

The program was conducted in the mini conference hall from 1.30 to 3.30 PM in the presence of the Principal and faculties of all the departments. This session was about "patent filing and writing for research grants" The presenter was Dr. Sunitha BE, PhD Professor, SRM INSTITUTE of arts and science. The program provided a single window awareness-cum-facilitation mechanism to create awareness and understanding about Intellectual Property Rights among the teaching staffs. Filing a carefully crafted patent application is the first effective step towards obtaining appropriate protection for inventions and thus for making an effective use of the patent system. After the program questionnaire was distributed to the staffs and feedback was collected through Google forms.

- **Patent filing:** To obtain the grant of a patent, a person, either legal or natural, must file an application at a patent office with the jurisdiction to grant a patent in the geographic area over which coverage is required.
- **Writing for research grants:** Research grants require proper writing it was discussed in the program about the proper details about the problems faced by researcher and to overcome it.

Name of the event	: QMS Data Analysis Training
Date of the Event	: 12-02- 2021
Organizing Department	: Dental Education Unit
Location of Event	: APDCH, Mini conference hall
Time	: 1.30-2.30pm
Number of teachers attended	: 17
Guest Speaker	: Dr.Bharath

SUMMARY

QMS Data Analysis Training program on 12.02.2021(Friday) at Mini Conference Hall, APDCH. 17 Teaching staff of APDCH attended the program.

This program intended to analyze the data from your QMS system in such a way that it becomes useful and meaningful for those within the institution that will use it to make decisions. This session intended to find where continual improvement can be applied to make the QMS more effective; and, of course, the data is generated by the applied QMS monitoring and measurement. The training done to have better knowledge of the following:

- The Plan, Do, Check, Act (PDCA) cycle.
- The core elements of a management system and the interrelationship between top management responsibility, policy, objectives, planning, implementation, measurement, review and continual improvement.
- The concepts of managing occupational health and safety through hazard identification, risk assessment and risk control and compliance with legal requirements and other requirements.

This training was conducted to give an awareness regarding the intuitions strategy of quality towards the dental education. This program enhanced the quality measures of teaching faculty to deliver a better education to the aspiring dental students.

POST EVENT REPORT

Name of the event	: Hospital Infection Control Practice Training Program
Date of the Event	: 03-02-2021
Organizing Department	: IQAC
Location of Event	: APDCH, Mini conference hall
Time	: 1:00-3:00pm
Number of teachers attended	: 12
Guest Speaker	: Dr.Sumanth MDS

SUMMARY

The Hospital infection committee conducted training program as a part of calendar activity on 03/02/2021 (Wednesday) from 1.00 pm to 3.00 pm. The clinical Teaching staff attended the training. Dr R Sumanth Kumar, NABH coordinator trained the staff on hospital policy in infection control. Though all staffs are responsible for ensuring consistent delivery of high quality clinically effective care and protect patients from the risk of infection, the support of an "Infection Control Practitioner" can play a vital role in ensuring them adhere to the correct infection control practices. Thus one can prevent a large number of infections with improved healthcare delivery and patient outcome.

This program was an endeavour to prepare the staffs for implementation of hospital infection control activities in their day to day practices to prevent hospital acquired infections. Correct method of use of personal protective equipment (PPE), the significance of taking standard precautions, elements of standard precautions, supportive measures, administrative responsibilities, education and training of staffs were discussed.

Participants were also made to demonstrate the various protocols after training.

Post training questionnaire was given as Google forms to assess the level of training received.

POST EVENT REPORT

Name of the event : Staff Appraisal training program
Date of the Event : 29-01 2021
Organizing Department : IQAC
Location of Event : APDCH, Mini conference hall
Time : 1:00 – 3:00 pm
Number of teachers attended : 19
Guest Speaker : Dr.SumanthMDS

SUMMARY

Staff Appraisal training program was done for first batch of teaching faculty. All Faculty were sensitized about the process of Credentialing and Privileging, need for the process as per ISO, NABH standards and DCI requirements. It was mentioned during the training that

- Credentialing will be done for all Faculties on or before the date of joining and privileging process for doctors will be done on the date of joining.
- All Teaching Faculty will undergo verification of their qualification certificates on or before the date of joining as per DCI norms.
- Renewal of every faculty's registration certificate will be done once in a year.
- All credentials of each faculty will be verified by the HR Co-coordinator and the Principal.
- Based on individual credentials, each and every faculty will be privileged to perform clinical procedures in their respective department/field.
- Individual privileging forms will be completed by the applicant doctor of his/her respective department on the date of joining. This will be reviewed by the HOD, verified by the Principal and approved by the Correspondent.
- These forms will be filed in the individual employee file maintained by HR coordinator.
- Staff can request their academic and clinical related privilege and the same will be verified and approved by higher authorities.

Faculties also suggested during the training that HOD's signature field to be included in the privilege application form. Both Credentialing & Privileging process will be revised once in a year for all faculties.

POST EVENT REPORT

Name of the event	:Theory Examination and question paper setting for UG students
Date of the Event	:27-01-2021
Organizing Department	: IQAC
Location of Event	:APDCH, Mini conference hall
Time	:12.30 pm to 1.30pm
Number of teachers attended	:12
Guest Speaker	:Dr.Manoharan,

SUMMARY

The training Program for teaching faculties was conducted as per the training calendar on 27.01.2021 between 12.30 pm to 01.30pm Dr.Manoharan, professor and HOD Indra Gandhi Dental College and Hospital, Pondicherry gave an extra ordinary guest lecture

The topic Theory Examination and question paper setting for UG students had elaborated the concept and strategies of conducting examination. Being aware of why we are conducting exam for students and what exactly we want to test can help make students and staffs experience of exams more useful. The following tips given by the speaker during the entire exam process from planning to reflection helped our teaching faculty a lot to conduct examination. Distribution of topics in each paper along with course description of the concerned specialty was highlighted Topics assigned to different papers are generally evaluated under those sections. However, a strict division of the subject may not be possible and some overlapping of topics is inevitable. Students should be prepared to answer overlapping topics. Questions on recent advances may be asked in any or all the papers.

This program had given a wide knowledge in improving the quality of teaching. The attendance details were documented and feedback was collected through Google forms and participation certificate was dispatched to the participants.

POST EVENT REPORT

Name of the event	: 5S and Kaizen training program
Date of the Event	: 25-01- 2021
Organizing Department	: IQAC
Location of Event	: APDCH, Mini conference hall
Time	: 10.00am – 12:00 pm
Number of teachers attended	: 12
Guest Speaker	: Dr.Bharath & Dr.Dhivya

SUMMARY

Five S and Kaizen training program for teaching staff, staff's were conducted as per the training calendar on 25-1-21 in mini conference hall. The trainers of the program were Dr.Bharath and Dr.Dhivya.

The concept and strategies of 5S and Kaizen were elaborated. It is a simple but effective way of bringing quick improvement in the working environment and service quality by involving all the hospital staffs including efficient use of resources and waste reduction.

Kaizen is considered a culture more than a methodology and is based on communication and cooperation among the organization members as part of the lean process improvements. "Five S" of Kaizen is a systematic approach which leads to foolproof systems, standard policies, rules and regulations to give rise to a healthy work culture at the organization. It also leads to employees who strongly feel attached towards the organization.

The attendance details were documented along with the post training Questionnaire and feedback by HR coordinator and QMS Assistant for drafting the corrective action measures if any.

POST EVENT REPORT

Name of the event	:HIS Training for teaching faculties
Date of the Event	:21.01.2021
Organizing Department	:IQAC
Location of Event	:APDCH, Mini conference hall
Time	:10:00 – 12:00 pm
Number of teachers attended	:22
Guest Speaker	:Mr.Keerthirajan,CEO - FitSysPvt.Ltd.

SUMMARY

The HIS Training program was held on 21.01.2021 at APDCH ,mini conference hall4 for all the teaching staff.The program was initiated by Mrs.Preethi Quality Control Manager, APDCH. APDCH is heading towards complete digitalization before 2022.

The speaker of the program was Mr.Keerthirajan,CEO - FitSysPvt.Ltd. He gave a elaborate training regarding the usage of this software. An efficient HIS is a key component for the effective functioning of the Insitution. New hospital information system for our institution APDCH, is procured from FitSysPvt.Ltd.This creates convenience for them and saves valuable time for them.With increasing number of patients, it can become challenging for doctors to deliver excellent patient care. In case, one critical piece of equipment fails to work, the quality of patient care decreases and can also become life-threatening.Thissoftware has the ability to deliver a wealth of data in a continuous feedback loop which can then be used for equipment optimization and performance improvement.

This program intends towards the quality improvement of the staff working in our institution. Certain query about New Hospital Information System (HIS) portal was clarified by the trainer.

POST EVENT REPORT

Name of the event	:Antibiotic policy training
Date of the Event	:19-01-2021
Organizing Department	:IQAC
Location of Event	:APDCH, Mini conference hall
Time	:10.00am – 12.00 pm
Number of teachers attended	:14
Guest Speaker	:Dr.James Bhagat., MDS

SUMMARY

The program started after the welcome address and motivational short speech by Principal Dr.Vasanthakumari.A. The speaker of the program was Dr.JamesBhagath. He discussed about the antibiotic policy that is being followed in the college as per the guidelines. An antibiotic policy is a set of principles to guide implementation of prudent and rational antimicrobial prescribing in the hospital. An antibiotic guideline can help to improve patient outcomes, reduce the cost of patient care, enhance cost savings, improve quality of care, reduce variations in antibiotic prescription amongst clinicians and may be an effective means of changing behavior in antimicrobial prescribing.

A multidisciplinary antibiotic management team can be set up to write the antibiotic guideline and policy. He discussed regarding the prescription of antibiotics and other drugs which must be followed as per our drug formulary designed by our institution. The policy should contain antibiotics for general use, reserved and restricted antibiotics; recommendations for principles of antimicrobial stewardship, alternatives for antibiotic use in case of allergy, guidance for intravenous to oral switch etc. The antibiotic policy and guidelines are living documents and therefore should be reviewed at regular intervals. They should be updated according to current medical knowledge, clinical practice and local circumstances. The training was given to teaching staff. This program mainly focused with regard to the quality improvement and proper knowledge about antibiotic policy of APDCH.

POST EVENT REPORT

Name of the event	: Standardization of Disinfection & Sterilization in lab
Date of the Event	: 17/6/2020
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 10.00 am to 12.00 pm
Number of persons attended	: 14
Topic	: Awareness of the disinfection and sterilization policy
Guest Speaker	: Dr Shamala

SUMMARY

- NABH coordinator **Dr Sumanth and MS Preethi MBA**, quality manager conducted a session on Awareness of the disinfection and sterilization policy among hospital teaching staff and updating their knowledge in basic principles.
- **Dr Shamala MDS**, Infection control coordinator presented lecture on lack of proper sterilization method during a process would lead to increased costs and unreliable result.
- The teaching staffs working in academic research laboratories are usually not stable and the processes used in these laboratories are also diverse, it is therefore necessary that laboratory staff takes special measures to train each person, depending on type of tasks they work on. These trainings should be repeated at regular intervals or be updated. The periodic evaluation of staff's knowledge on the principles of safety in the laboratory may help to prevent probable contamination and damage to life and properties.
- The standard guidelines for working with infectious agents have been compiled and are made accessible to everyone by the NABH coordinator DR Sumanth

Guest Speaker	: Dr Sumanth and MS Preethi MBA

SUMMARY

NABH coordinator **Dr Sumanth and MS Preethi MBA**, quality manager presented a session on chapter 1 and 2 for creating awareness on documentation for NABH accreditation.

The session defines chapter 1 as follows:

- The scope of services and provides information to patient about services available.
- All patients visiting to organizations should be registered and assessed in OPD, IPD or Emergency.
- The laboratory and Imaging services are provided by competent staff in a safe and secure environment.
- A Standard approach to be used for referring or transferring patient to other organizations including discharge

Chapter 2 as follows:

- To guide and encourage patient safety as overall principle for providing care to patients.
- Specific services such as intensive care, surgery, blood transfusion, and emergency Anesthesia, Obstetrics and Pediatric are addressed.
- The organizations are encouraged to identify and adapt clinical guidelines to maintain uniformity in patient care.

All the teaching staffs who attended the session found it was fruitful and informative one.

Guest Speaker	:Dr Bharath MR and Mr.Parivel

SUMMARY

- The systematic evaluation of the quality of medical records is crucial. The session was conducted by **Dr Bharath and Mr Parivel** to assess the efficacy of internal audit as a tool to improve the quality of medical records in hospital setting.
- The first part of audit training showed the methodology used and a sample of medical records to replicate the assessment. In the second part the teaching staffs were divided in small groups and invited to actively discuss the results, identify the weaknesses and define the cause of problem. Finally, a report of the meeting was recorded and a satisfaction questionnaire was administered to all the staffs.
- It was a useful session in improving the quality of care provided by the clinical teaching staffs across the organization. The benefits of undertaking internal audit are promotion of good practice, providing opportunities for training and education, better use of resources and increase in efficiency.
- Medical record auditing was preventative measure to catch potential errors that can result in liabilities and investigations.

POST EVENT REPORT

Name of the event :HIS Practice, Document Writing & OP card
Date of the Event :25/3/2020
Organizing Department :IQAC
Location of Event :APDCH Mini Conference Hall
Time :10.00am to 12.00 pm
Number of persons attended :12
Guest Speaker :Mr Prabhu AO

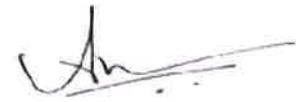

SUMMARY

- Hospital Information System HIS is a software program used for collection of various dental records that get generated during any clinical procedures.
- **Mr Prabhu** the administrative officer of APDCH along with the IT team **Mr Ganapathy** gave an elaborate presentation on how to use this software for OP card writing, document writing, and reporting lab results.
- Many teaching staffs had doubts in using the software and getting oriented to it. Time management in documenting was a great challenge faced by few HODs of various departments. All doubts were clarified in clear and simple way so that implementation was found to be easy in future.
- HIS eliminates the need to track down a patient previous paper dental record and assists in ensuring data is up-to-date, accurate and legible.
- The purpose of this session was to set standards for documentation within the electronic record. The program was very effective for all teaching staffs to improve our quality measures in recording the patients details

POST EVENT REPORT

Name of the event	:Re-Orientation on Safety Measures for Covid Management
Date of the Event	:12/2/2020
Organizing Department	:IQAC
Location of Event	:APDCH Mini Conference Hall
Time	:10.00 am to 12.00 pm
Number of persons attended	:17
Topic	:Safety measures in dental college for covid management
Guest Speaker	:Dr Sathish kumar MDS

SUMMARY

- Coming back to the workplace after working from home can be filled with excitement, anxiety or maybe even fear. Since COVID-19 infection is highly infectious, APDCH handling such patients is expected to put robust infection prevention control protocol in place. Such protocols would be based on latest guidelines, issued by the MOHFW, ICMR, NCDC and CPCB. Safe-guarding health of teaching staffs, nonteaching staffs and community is of paramount importance.
- **Dr Sathish kumar MDS** Professor of Karpaga Vinayaga college was the speaker invited by IQAC chairperson Dr Sudhakar to present a lecture on safety measures in dental college for covid management. He ensured that all health care personnel must use PPE as per guidelines, they need to be properly trained and assisted during wearing of PPE.
- He insisted that making sure that the institution facility is fully clean, disinfected and equipped with a blueprint for maintaining safe conditions. Setting up a support system in place for employees as they return to work and adjust to new realities and emotional challenges presented by the COVID-19 pandemic. Creating a plan for a safe work environment that protects staffs and students alike from risks connected to COVID-19, including exposure and transmission.
- Dr Sumanth gave vote of thanks. All teaching staffs who attended the program found very informative.

SUMMARY

- Hospital Information System HIS is a software program used for collection of various dental records that get generated during any clinical encounter or events. To support collaboration and clinician-targeted decision support, electronic health records must contain accurate information about patients care providers.
- The session gave an overview about improved communication among the care team, targeted clinical decision support, such as critical laboratory test results being automatically routed to the appropriate clinician and the sharing of care team information with patients, thus improving patient satisfaction and engagement.
- **Mr Prabhu** the administrative officer of APDCH along with the IT team **Mr Ganapathy** and Dr Bharath gave an elaborate presentation on how to use this software for recording the patient details, lab test report and treatment done. Each teaching faculty was given username and password to access the software which is installed in all our department.
- The program was very effective for all teaching staffs to improve our quality measures in recording the patient's detailed case history.

POST EVENT REPORT

Name of the event :Spill Management
Date of the Event :5/12/2019
Organizing Department :IQAC
Location of Event :APDCH, Mini Conference Hall
Time :10.00am to 12.00 pm
Number of persons attended :20
Topic :Spill management in hospitals
Guest Speaker :Dr Sumanth MDS

SUMMARY

- Spill management in hospitals is vital awareness program that has to be conducted as hour of need. This is due to the combination of hazardous substances, busy environment and vulnerable patients in the clinical department, but with the correct training and equipment in place, teaching staff can minimize the risk to themselves, to visitors and to patients.
- **Dr Sumanth NABH coordinator** presented the lecture on the same to all clinical teaching staffs. The principal objectives of this Spill Management session were to:
 - Provide readily accessible emergency information to the cleanup crews, in the event of a spill
 - Promote the safe and effective recovery of spilled materials
 - Minimize the environmental impacts of spills to water or land
 - Facilitate the management of wastes according to environmental legislation
- Reporting of the spill, whether to management or to the appropriate committee, is the responsibility of the designated Team.
- **Dr Shamala MDS** infection control coordinator gave vote of thanks and framed a team to implement and monitor the same.

Name of the event :Care Of Emergency Patients
Date of the Event : 13/11/2019
Organizing Department :IQAC
Location of Event :APDCH, Mini Conference Hall
Time :10.00am to 12.00 pm
Number of persons attended :16
Topic :Emergency patient management
Guest Speaker :DR SURESH MDS

SUMMARY

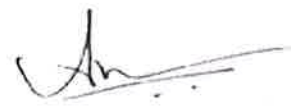

- The top most requirements for emergency patient management is the updated knowledge of the doctor that aids in the early diagnosis and management. Exposure into emergency care through training programs, continuous dental education sessions and case discussions with peers could help them to enhance their knowledge, competence and confidence.
- Care Of Emergency Patients was a session organized by IQAC and the speaker of the program was **DR SURESH MDS**, Professor of Oral surgery department. The speaker highlighted that the extent to which the emergency should be managed may depend on the condition of the patient, expertise of the doctor and hospital setting may need to do more than just stabilize a critically ill patient.
- The sessions were extremely interactive with active involvement of participants including UG's PG's and the clinical teaching staffs.

POST EVENT REPORT

Name of the event	: Evolving Trends in Dental Education
Date of the Event	: 25/9/2019
Organizing Department	: IQAC
Location of Event	: APDCH MiniConference Hall
Time	: 10.00 am to 12.00 pm
Number of persons attended	: 19
Topic	: Student centric concept in Dental Education
Guest Speaker	: Dr Shabana Fathima MDS

SUMMARY

- Dental education must evolve continuously, as future dentists will face patients with different oral care contexts as compared to the present scenario. In view of this, the teaching methodology has also come a long way, with a paradigm shift in the approach of teacher-centric education to student-centric. This approach is primarily focused on an outcome and competency-based education ecosystem that allows structure and better student assessment in the field of dentistry.
- The student-centric learning has achieved an improved one-on-one learning strategy through small group discussions and peer interactions, which help them in understanding the concepts and processes involved in dentistry in a better way.
- **Dr Shabana Fathima MDS** the speaker of session gave a clear overview about these evolving trends in dental education. The current trends in dental education like new teaching, learning, and assessment methods like small group discussions, case-based learning, competency-based learning, Inquiry-based teaching-learning, and peer-assisted learning were the key points discussed in the session.
- **Dr Bharat** organized the program for the benefit of teaching staffs to improve their quality measures.

Location of Event	: APDCH, Mini Conference Hall
Time	: 10.00 am to 12.00 pm
Number of persons attended	: 20
Topic	: Benefits of e-learning
Guest Speaker	: Dr Maheshwaran MDS

SUMMARY

- The goal of this session was to encourage individual teachers, groups of teachers in colleges to develop educational content in electronic format, suitable for use in various teaching and learning programs.
- The speaker of the session was **Dr Maheshwaran MDS** professor in Vivekandha Dental College. He presented the need to know the benefits of e-learning-like to learn experientially, approach learning as problem-solving, learn better when they can see the immediate value and application of content; and prefer to study at a time, place and pace that is convenient for them.
- This section reviews the reasons for developing e-learning and provides an overview of those situations in which e-learning can be an appropriate solution. It also discusses the stages of developing an e-learning program or course, the resources and technology required, the main types of learning solutions and e-learning components.
- The teaching staffs of our college interacted with the speaker and clarified their doubts. Feedbacks were collected and the program ended with vote of thanks by **IQAC coordinator Dr Sudhakar**. Librarian also attended the program and was discussed to give his full support in implementation of the same.

POST EVENT REPORT

Name of the event : Youth Red Cross Sensitization Program
Date of the Event : 17/7/2019
Organizing Department : IQAC
Location of Event : APDCH, Mini conference hall
Time : 12.30 pm to 3.30 pm
Number of persons attended : 16
Topic : Glimpses of Youth Red Cross
Guest Speaker : Dr Rajeshwari MDS

SUMMARY

The Red Cross through its youth program, plays an important role in channeling and guiding the young energy in the cause of humanitarian action. The following are some glimpses of Youth Red Cross. The main purpose of organizing the session was to:

- Informing the junior teaching staffs about the roles and responsibilities of the Red Cross and encourage them to contribute.
- An awareness on the care of their own health and that of others.
- Understanding and acceptance of civic responsibilities and acting accordingly with humanitarian concern, to fulfill the same.
- To enable the growth and development of, spirit of service and sense of duty with dedication and devotion in the minds of youth.
- To foster better friendly relationship with all, without any discrimination.

All the junior teaching staffs actively participated and **Dr Rajeshwari MDS** presented the session in an interactive manner. **Dr Bharath** felicitated the speaker and feedback forms were collected at the end of the program.

POST EVENT REPORT

Name of the event	:NAAC, NABH, Iso Orientation and Training Program for Newly Joined Faculties
Date of the Event	:26/6/2019
Organizing Department	:IQAC
Location of Event	:APDCH, Mini conference hall
Time	:9.30am to 12.30 pm
Number of persons attended	:15
Guest Speaker	:MrParivel and Ms Preethi MBA

SUMMARY

Orientation program began with Moola Mantram. Honorable speaker **Mr.Parivel** from Vishnu consultancy and **MS Preethi** Quality manager were felicitated by **Principal Dr Vasanth Kumari** on behalf of APDCH.

The session well began covering the following points: -

- Introduction of NAAC in first session of program
- Introduction of NABH in second session of program
- Introduction of ISO in Third session of program
- Importance and techniques of implementation of different points of NAAC
- Very appreciable lecture with the basic facts very clear.
- Overall, it was very fruitful, elaborative lecture for new teaching staffs

The Orientation Program concluded with a big applause and vote of thanks by **Dr. Sumanth**

ACADEMIC YEAR 2018-19

POST EVENT REPORT

Name of the event	: Usage of technology as teaching and learning tool
Date of the Event	: 23/5/2019
Organizing Department	: IQAC
Location of Event	: APDCHMini Conference Hall
Time	: 10.00 am to 12.00 pm
Number of persons attended	: 20
Topic	: Effective use of digital learning tools
Guest Speaker	: Dr Aravind MDS

SUMMARY

- The effective use of digital learning tools in classrooms can increase student engagement, help teachers improve their lesson plans, and facilitate personalized learning. The educational technology has its challenges, particularly when it comes to implementation and use.
- Despite the challenges and concerns, it is important to note the benefits of technology in education, including increased collaboration and communication, improved quality of education, and engaging lessons that help spark imagination and a search for knowledge in students.
- Teachers can leverage technology to achieve new levels of productivity, implement useful digital tools to expand learning opportunities for students, and increase student support and engagement. It also enables teachers to improve their instruction methods and personalize learning. The speaker of the day was **Dr Aravind MDS from Bharat University**. His lecture was very interactive to all teaching staffs.
- Queries were asked the audience and clarification was given by the speaker. it was a very informative session. Feedbacks were collected at the end of the program. Implementation of the Technology were finalized by IQAC chairperson DR Sudhakar along with IT department staffs.

POST EVENT REPORT

Name of the event	: Innovative teaching ideas improvising program
Date of the Event	: 26/4/2019
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 10.00 am to 12.00 pm
Number of persons attended	: 22
Topic	: Creative Teaching Ideas
Guest Speaker	: Dr B Hemasathyavathy MDS

SUMMARY

- With an increasing emphasis on creativity and innovation in the twenty-first century, teachers need to be creative professionals just as students must learn to be creative. Effective creative teaching strikes a delicate balance between structure and improvisation.
- The program was organized by IQAC and the eminent speaker of this topic **Dr.Hemasathaya B MDS**, Professor and HOD of Oral Pathology department insisted on the five dimensions of this topic as Creative Teaching Ideas, Ability in Creative Teaching, Divergent Thinking Abilities in Teaching, Motives in Creative Teaching, and Creativity in Teaching Performance.
- She spoke on how to incorporate audio-visual materials to supplement textbooks during the sessions. Those can be models, filmstrips, movies, pictures, infographics or other mind mapping and brain mapping tools. Such tools will help their imagination thrive and grow. Those methods will not only develop their ability to listen but will also help them understand the concepts better.
- Queries were asked the teaching staff and clarification was given by the speaker. Very informative session. Feedbacks were collected at the end of the program. Implementations of the creative innovation teaching methods were finalized by IQAC chairperson DR Sudhakar.

POST EVENT REPORT

Name of the event	: Continuous quality initiatives
Date of the Event	: 10/4/2019
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 10.00 am to 12.00 pm
Number of persons attended	: 21
Topic	: Implementation CQI techniques in a practice setting
Guest Speaker	: Mr.Parivel

SUMMARY

- The program is aimed at evaluating the need to revise the overall educational objectives. The major components of this session include: CDE Program Planning, Program Implementation, Program Assessment, and Program Improvement. The teaching staff must recognize the need to change to improve substantially, which often means adopting new paradigms to achieve major improvements.
- This session provides an overview of CQI concepts and processes as: Define CQI and how it applies to Institutional implementations and practice improvement strategies. Identify a conceptual framework to consider when implementing CQI techniques in a practice setting. Explore tools, techniques, and strategies that the teaching staff use to guide and manage CQI initiatives.
- The Training was held in person by consultant **Mr.Parivel** from Vishnu Consultancy at Mini conference hall first floor academic block for the teaching Staff. The training and organized by **Dr.N.Bharath**, Management Representative. The program provided the knowledge and skills to implement, maintain and improve the more technical aspects of a quality management system.

POST EVENT REPORT

Name of the event : Writing successful proposal for research funds
Date of the Event : 27/3/2019
Organizing Department : IQAC
Location of Event : APDCH Mini Conference Hall
Time : 10.00 am to 12.00 pm
Number of persons attended : 24
Topic : Grant writing for research funding
Guest Speaker : Dr Senthil PHD

SUMMARY

- The session highlights some guidelines on writing a research proposal. Grant writing for research funding can be a difficult and time-consuming task. Writing a successful research proposal means remembering to write to the format prescribed by the institution. **Dr Senthil PHD, professor in IGIDS** was the speaker of the day. He informed in his lecture the valuable points on writing proposal for grants.
- Prior to starting a grant proposal, it is essential to study your funding source. What recent grants have they approved in a similar specialism to yours? What are their other calls to funding? Does your research match their priorities? Authors should never submit the proposal without having someone else review it.
- Outstanding research that receives good peer reviews from the experts in the field is essential to your grant application success. The speaker insisted to bear in mind that some members of your reviewing panel may not be specialists in your particular field.
- He informed us that constraints on funding, judging panels for grants and peer reviewers will select proposals, not only include outstanding science or research, but also incorporate carefully thought-out plans to reach end-users, represent value for money, with methodology that's clearly detailed and budgeted. A very informative session all teaching staffs found very informative for them.

POST EVENT REPORT

Name of the event : Analysis and critical reporting of students feedback
Date of the Event : 13/2/2019
Organizing Department : IQAC
Location of Event : APDCH Mini Conference Hall
Time : 10.00 am to 12.00 pm
Number of persons attended : 23
Topic : Purpose of feedback analysis
Guest Speaker : Mr Parivel

SUMMARY

- The program was conducted to create awareness to teaching staff regarding student's feedback analysis.
- External expert Mr Parivel , quality manager of Vishnu consultancy gave lecture on the purpose of the analysis, identify the potential users of the information, and devise a plan for using the information.
- This helps prevent the type of biases that can occur when a single person or institution conducts an analysis.
- The importance of analysis is defined here as their ability to affect the implementation of the policy.
- IQAC chairperson Dr sudhakar discussed to form a separate analytic team for feedback of students.
- The report of the analysis will be discussed in detail during the forthcoming IQAC meeting.

POST EVENT REPORT

Name of the event	: Development of Communication skills of teaching staff
Date of the Event	: 30/1/2019
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 10.00 am to 12.00 pm
Number of persons attended	: 22
Topic	: communicative approach of teaching staffs
Guest Speaker	: Dr Varsha, PHD

SUMMARY

- The speaker **Dr Varsha, PHD** enlightened this session as key approach to new version of teaching method. Good communication skills of teacher are the basic need of academics' success of students, and professional success of life.
- Performance of teachers in classroom totally depends upon the communication skills. If the teacher has good communication skills, then he can easily convey his /her message or deliver the lecture in an understandable manner.
- The lecture focused on Communication as a dominant factor effecting the academic achievements of the students. The speaker further pointed that good communication not only important for a teacher but it is also very important for students for promoting their academics.
- She insisted the 'communicative approach' concept is the core of their analytical framework because it provides the perspective of 'how' teachers show their teaching purpose when dealing with the chosen content.
- The session was very interactive one and all the teaching staff who attended found very it was effective program.

POST EVENT REPORT

Name of the event : Seminar on meta-analysis and systematic review on Publication

Date of the Event : 17/11/2018

Organizing Department : IQAC

Location of Event : APDCH Mini Conference Hall

Time : 10.00 am to 12.00 pm

Number of persons attended : 20

Topic : Systematic reviews and meta-analyses

Guest Speaker : Dr Roopan MDS

SUMMARY

- Systematic reviews and meta-analyses present results by combining and analyzing data from different studies conducted on similar research topics. In recent years, systematic reviews and meta-analyses have been actively performed in various fields.
- **Dr Roopan MDS, Professor of Ragas Dental College** presented various guidelines for conducting systematic reviews and meta-analyses to help out teaching staffs to standardize them and improve their quality. He insisted that, accepting the conclusions of many studies without understanding the meta-analysis can be dangerous.
- This program provided an easy introduction to teaching staffs on performing and understanding the difference between systematic review and meta-analyses.
- A systematic review is an objective, reproducible method to find answers to a certain research question, by collecting all available studies related to that question and reviewing and analyzing their results. A meta-analysis differs from a systematic review in that it uses statistical methods on estimates from two or more different studies to form a pooled estimate.
- The New staffs interested to do research and publication actively participated in the program.

POST EVENT REPORT

Name of the event: : Awareness of registration of OP & Record keeping and list of Sentinel event
Date of the Event : 26/9/2018
Organizing Department : IQAC
Location of Event : APDCH Mini Conference Hall
Time : 12.00 pm to 3.00 pm
Number of persons attended : 22
Topic : The Sentinel Event Policy
Guest Speaker : Ms Preeethi, MBA

SUMMARY

- A sentinel event is a Patient Safety Event. a careful investigation and analysis of Patient Safety Events (events not primarily related to the natural course of the patient's illness or underlying condition), as well as evaluation of corrective actions, is essential to reduce risk and prevent patient harm.
- The Sentinel Event Policy explains how the health care organizations that have experienced a serious patient safety event to protect the patient, improve systems, and prevent further harm.
- **Ms Preeethi, MBA** Quality manager presented the lecture that hospitals need a clear responsibility to not only investigate, but report on, sentinel events for the sake of their standard operating procedures and the health of future patients.
- The objective of the session was to facilitate the improvement or development of reporting systems that receive information that can be used to improve patient safety. The Sentinel Event Policy had to be framed for APDCH was also discussed by her.
- The presentation outlines the requirements for an adverse event reporting system, including the mechanism for collecting reports, the capacity to perform investigations, the expertise required, the technical infrastructure, and the capacity to disseminate findings.
- The teaching and non-teaching staffs attended the session with great interest. Feedback forms were collected at the end of the program.

POST EVENT REPORT

Name of the event : Orientation of Imaging and laboratory personnel in radiation safety measures
Date of the Event : 06/8/2018
Organizing Department : IQAC
Location of Event : APDCH Mini Conference Hall
Time : 10.00 am to 12.00 pm
Number of persons attended : 24
Topic : Radiation safety measures
Guest Speaker : Dr Siva santhosh

SUMMARY

- The IAEA's safety services encompass design, siting and engineering safety, operational safety, radiation safety, safe transport of radioactive material and safe management of radioactive waste, as well as regulatory matters and safety culture in organizations.
- These safety services assist the teaching staff of OMR Department in the application of the standards and enable valuable experience.
- DR Siva Santhosh, an eminent speaker in Oral medicine and Radiology field presented an objective for decisions concerning safety and the decisionmakers must also make informed judgements and must determine how best to balance the benefits of an action or an activity against the associated radiation risks and any other detrimental impacts to which it gives rise.
- Dr Thillagavathy Vice Principal of our college gave vote of thanks and the implementation of radiation safety measures framed for the department was discussed elaborately with IQAC chairperson DR Sudhakar. Both the teaching staff and nonteaching staffs were benefited by this session.

POST EVENT REPORT

Name of the event	: NABH Induction Training
Date of the Event	: 8/8/2018
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 10.00 am to 12.00 pm
Number of persons attended	: 21
Topic	: NABH Accreditation benefits
Guest Speaker	: Preethi R.S, Quality Manager MBA

SUMMARY

- National Accreditation Board for Hospitals & Healthcare Providers (NABH) is a constituent board of Quality Council of India, set up to establish and operate accreditation standards for healthcare organizations in Hospitals.
- Accreditation to a health care organization stimulates continuous improvement. It enables the organization in demonstrating commitment to quality care and patient safety thereby ensures best clinical outcomes. It raises community confidence in the services provided by the health care organization as services provided by credentialed medical staff. It also provides opportunity to healthcare unit to benchmark with the best. An accreditation status also provides marketing advantage in a competitive health care.
- To comply with these standards, the hospital will need to have a process driven approach in all aspects of hospital activities
 - The testimony that hospital wishes to increase the patient's experience positively.
 - A mark of international recognition for our Institution.
 - Valuable to the hospital for medical tourism
- In a nutshell NABH aims at streamlining the entire operations of a hospital. This topic was highlighted by **Preethi R.S, Quality Manager MBA** in hospital management. The newly joined teaching staffs were trained to improve the quality in clinical practice.

POST EVENT REPORT

Name of the event : Glimpse Of Biostatistics
Date of the Event : 25/7/2018
Organizing Department : IQAC
Location of Event : APDCH Mini Conference Hall
Time : 12 .00pm – 3.00pm
Number of persons attended : 23
Topic : Biostatistics in the research field
Guest Speaker : Dr Prabhu MDS

SUMMARY

- Considering the importance of biostatistics in the research field as a whole, and looking at the current scenario regarding biostatistics knowledge and perception among PG students and Teaching staffs, and its impact on publication, it is need of the hour to take steps regarding education about biostatistics.
- IQAC chairperson **Dr Sudhakar** took an initiative to conduct a program on this topic for the benefit of teaching staff.
- **Dr Prabhu MDS** from **department of public health dentistry, Asan Dental college** gave an overview about the approach to biostatistics in research and dissertation work.
- Beginning with research question, how the design of the study, sample of observations chosen, proceeding for further data analysis, and interpretation to provide final conclusions of the research investigation was helpful in the understanding of advancement taking place in a particular field.
- The brief overview of the subject created a summary method for teaching staffs and PG students in their research projects and thesis works.

POST EVENT REPORT

Name of the event : Smart Board Training Class
Date of the Event : 11/7/2018
Organizing Department : IQAC
Location of Event : APDCH, Mini conference hall
Time : 12.30 pm to 3.30 pm
Number of persons attended : 23
Topic : Usage of smart board
Guest Speaker : Dr Bharath and Mr Parivel

SUMMARY

- Smart Class, is an example of new way of teaching and E-learning, making education system more impact. This modern technology of e-learning is been equipped in APDCH.
- Teachers were trained in smart board to improvise the quality of teaching and technical skills. Smart board teaching introduced to cater a better and interactive learning. This facilitates optimum learning for the students through text books, black boards and the visual media.
- **Dr Bharath and Mr Parivel** from Vishnu consultancy gave an elaborate demo and training for all teaching staff in usage of smart board. The Smart Board is so adaptable that teachers should have no difficulty in integrating it effectively.
- Smart board allows teachers to create high-impact lessons and engage students through interactive learning techniques. The tools included in SMART board helped teachers to get started instantly with a variety of different teaching approaches.
- Lecture hall 2 and hall4 were installed with Smart Board for teaching purpose. The HODs of all department were instructed to monitor their staff in Usage of Smart Board.

POST EVENT REPORT

Name of the event : Identification of slow and advance learners and managing
Date of the Event : 6/6/2018
Organizing Department : IQAC
Location of Event : APDCH ,Mini conference hall
Time : 9.30 am to 1.30 pm
Number of persons attended : 22
Topic : Amicable solution both for the slow learners & advance learners
Guest Speaker : Dr Dhivya MDS

SUMMARY

- Every student has different learning attitudes and learning habits. Teaching learning and teaching methodology has to be adapted such that the teacher does not lose the attention of the slow learners and turn off the advanced learners.
- This session was conducted by **Dr Dhivya MDS** to provide a desirable and amicable solution both for the slow learners and advanced learners to avoid any discrimination between them and they must take interest to reach up to a position in due course of time where both the group feel at par with each other.
- The purpose of session was to identify the learning levels of the students and conduction of activities for them:
 - Identification of the slow learners and advanced learners in the class
 - To ensure that slow learners and advanced learners are taken care as per their needs
 - To help them out for improvement in their academics.
- After all activities are completed the faculty mentor will submit the report to the head of the department and thereafter to IQAC to show the improvement of the slow learner as well as the achievements of the advanced learners.

POST EVENT REPORT

Name of the event : Internet what, why and how in practice teaching
Date of the Event : 25.07.2018
Organizing Department : IQAC
Location of Event : APDCH Mini Conference Hall
Time : 10.00 am to 12.00 pm
Number of persons attended : 12
Topic : Access to Internet resources
Guest Speaker : Dr Jayasenthil MDS and Dr Dhivya MDS

SUMMARY

- Enhancing lesson resources through use of Internet material; Structuring and supporting students access to Internet resources were the key points discussed in the program of Internet what, why and how in practice teaching.
- Interactive teaching methods, supported by the Internet, enable teachers to give more attention to individual students' needs and support shared learning. This can help to rectify inequalities in education experienced by students. Access to the Internet helps educational administrators to reduce the costs and improve the quality of education in our college.
- **Dr Jayasenthil and Dr Dhivya** gave an elaborated lecture on this topic. Many senior teaching staffs were given demo in usage of internet download and its application in teaching the subject.
- Very interactive session organized by IQAC to enhance quality improvement of teaching staffs. Queries were answered by IT department manger and feedbacks were collected.

Date of the Event : 11.07.2018
Organizing Department : IQAC
Location of Event : APDCH Mini Conference Hall
Time : 10.00 am to 12.00 pm
Number of persons attended : 21
Topic : Assessment practices for teaching staffs
Guest Speaker : Dr Kanan MDS

SUMMARY

- Assessment practices provide foundation for students academic achievement in the form of scores they attained in written or oral examination
- The objectives of the program were;
 - To identify the challenges faced by teachers in classroom assessment practices
 - To pinpoint the available opportunities for enhancing classroom assessment practices
- **Dr Kanan MDS** an eminent speaker in this expertise field informed the delegates about the Formative and summative assessments in conjunction with appropriate feedback systems are used as a tool in support for teaching system.
- The lecture enlighten a diagnostic approach to determine competence, gaps, and progress so learners may adapt their learning strategies and teachers their teaching strategies.
- It was very useful program organized by IQAC for all teaching staffs of our college.

POST EVENT REPORT

Name of the event	: Quality improvement through ITC for teaching staff
Date of the Event	: 04.07.2018
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 10.00 am to 12.00 pm
Number of persons attended	: 19
Topic	: Utilization of ITC
Guest, Speaker	: Dr Thilagavathy N, MDS

SUMMARY

- The utilization of ICT has rendered a significant contribution in bringing about improvements. It can be used to train students in skills which they will need in further education and as an ongoing learning process throughout the rest of their lives.
- The program helped the teaching staff to access the information and communication outside the classroom. It can be used to support teacher development in teaching learning process .It can support and potentially transform the learning and teaching process.
- **Dr Thilagavathy N MDS** an eminent speaker gave w wide knowledge in usage of ITC as teaching tool. All the teaching staffs including the HODs were benefited by this awareness program.
- The training provided by IQAC created a platform for teachers to upgrade their skills and knowledge, sharing knowledge with peers, and connecting to the latest changes in the education field.

POST EVENT REPORT

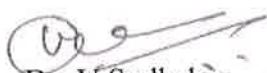

Name of the event	: Awareness on student exchanging program and
Collaboration with other universities	
Date of the Event	: 21.06.2018
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 10.00 am to 12.00 pm
Number of persons attended	: 18
Topic	: Benefits of student exchange program
Guest Speaker	: Dr Dhivya K MDS

SUMMARY

To increase research collaboration within our Institutions, Awareness on student exchange program was conducted. The speaker informed the teaching staffs about the exchange system and about the partner institutions. The key points discussed was:

- To keep in constant contact with the exchange program coordinators of the partner universities.
- Inspect the regulations, academic rules and courses of the corresponding departments in partner universities for the purpose of informing the potential exchange students of the department.
- Report to the department the grades of the courses taken by the outgoing exchange students upon their return, possibly after converting them using an equivalency table.

Through the advances in communication and Internet technologies, a new type of learning environment would be created. Instead of limiting teaching to local traditional classrooms, this new type of online classroom provides a multilingual and highly diverse learning environment. The speaker **Dr Dhivya K MDS** enlightened this session as key approach to new version of teaching method and she also enforced this exchange program would create a new opportunity for research work.

POST EVENT REPORT

Name of the event : Infection Control Training
Date of the Event : 13.6.2018
Organizing Department : IQAC
Location of Event : APDCH Mini Conference Hall
Time : 10.00 am to 12.00 pm
Number of persons attended : 14
Topic : Safety measures in infection control
Guest Speaker : Dr Shamala MDS

SUMMARY

- The course provides crucial knowledge necessary to provide safe, effective quality patient care. Presentations address all aspects of clinical management, including facility preparation and surge planning; health worker infection prevention and control; interfacility transfer; clinical management of mild, moderate, and severely ill patients with chronic infection.
- **Dr shamala , Professor in Oral Pathology and Microbiology, eminent speaker** of the day mentioned about the special considerations for geriatric, pregnant, and pediatric patients. Rehabilitation; and ethics and palliative care. The program had 2 modules:
- Module 1: "What's the Risk?" In this interactive scenario, the clinical teaching staff must identify infection risks and take action to protect patients.
- Module 2: "Chain of Infection". This session was based on interactive module challenges where the professional clinical teaching staff had to break the chain of infection in a busy healthcare environment and educate the students on the consequences of not following infection prevention and control recommendations.
- The program was successful for creating a quality enhancement to clinical staffs. Feedbacks were collected at the end of the program.

POST EVENT REPORT

Name of the event : Iso Audit Training Program
Date of the Event :17.05.2018
Organizing Department :IQAC
Location of Event :APDCH Mini Conference Hall
Time :10.00 am to 12.00 pm
Number of persons attended : 27
Topic : ISO internal Audit
Guest Speaker :Mr. Parivel

SUMMARY

- The Iso 9001:2015 internal audit Training was held in person by **ISO consultant Mr.Parivel from Vishnu Consultancy** at Mini conference hall first floor academic block from 10.00 am to 12.00 pm for the teaching Staff. The training and organized by **Dr. N.Bharath , Management Representative** for teaching staffs of APDCH on 17/5/ 2018.
- The course was conducted for teaching staff to learn quickly and efficiently how to conduct an ISO 9001:2015 audit. It helps to improve your curriculum vitae and career opportunities with qualifications in ISO 9001. The speaker of the session highlighted about internal auditing within departments for improving quality measures.
- By participating this program, the teaching staff will be able to Understand how the requirements can be interpreted/should be implemented in their respective departments .Interpret how the requirements can be interpreted/should be implemented within the institution .Assume a productive role in an audit of departments Quality Management System as outlined in ISO 9001.
- The training session concluded with a tentative schedule organized to do sample audit in 2 departments by the staffs. Feedbacks about the sessions were collected and doubts were clarified by the speaker.

POST EVENT REPORT

Name of the event	: Biomedical Waste Segregation
Date of the Event	: 6.4.2018
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 12.00 pm to 3.00 pm
Number of persons attended	: 18
Topic	: Biomedical Waste Segregation
Guest Speaker	: Dr Suresh MDS

SUMMARY

- Hospital waste is a potential health hazard to the health care workers, public and flora and fauna of the area. Segregation is the most crucial step in bio-medical waste management. Effective segregation alone can ensure effective biomedical waste management. The bins and bags should carry the biohazard symbol indicating the nature of waste to the patients and students.
- All staff members, faculty, hospital workers have been given a one day training on BMW rules -2016 by guest speaker **DR.SURESH** organized by the hospital infection control committee .
- The latest guidelines for segregation of bio-medical waste recommend the following color coding:
 - **Red bag** – syringes (without needles), soiled gloves, catheters, IV tubes etc. Should be all disposed of in a red colored bag, which will later be incinerated.
 - **Yellow bag** – all dressings, bandages and cotton swabs with body fluids, blood bags, human anatomical waste, and body parts are to be discarded in yellow bags.
 - **Cardboard box with blue marking** – glass vials, ampoules, other glass ware is to be discarded in a cardboard box with a blue marking/sticker.
 - **White puncture proof container (PPC)** – needles, sharps, blades are disposed of in a white translucent puncture proof container.
 - **Black bags** – these are to be used for non-bio-medical waste
- The session was concluded by creating surveillance groups within hospitals and everyone would be held accountable for misconduct and improper disposal of waste. Consequences could be implemented where teaching staffs would be required to monitor the clinical students if they violate the rules.

POST EVENT REPORT

Name of the event	: Hand washing techniques -NT
Date of the Event	: 21st March 2018
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 9.30 am to 1.30 pm
Number of persons attended	: 11
Topic	: Hand washing technique Demo training
Guest Speaker	: Dr. Sumanth

SUMMARY

- Proficiency-based training program for hand hygiene has been conducted for teaching staff on 21/03/2018.
 - Hand hygiene is critical to patient safety, but low performance in terms of the quantity and quality of hand hygiene is often reported. Detailed steps were delivered on the different steps of hand hygiene technique. Hand hygiene reduces the transmission of microorganisms (including those that are antibiotic-resistant), increases patient safety, and decreases health care-associated infection (HAI). Effective, timely hand hygiene is a cornerstone of infection prevention and control.
 - By the end of this training, participants were able to:
 - Describe hand hygiene as a critical component of infection prevention and control;
 - Identify the 5 moments for hand hygiene;
 - Discuss glove use and hand hygiene during patient care activities;
 - Demonstrate the correct way to wash hands with soap and water according to the who-recommended method;
 - Demonstrate the correct way to perform hand hygiene with an alcohol-based hand rub (ABHR) according to the who-recommended method;
 - Discuss key issues and considerations of hand hygiene in a health care facility.
- Dr Sumanth MDS**, elaborated training made the session livelier among the teaching staff and this program enhanced the quality improvement during clinical teaching.

POST EVENT REPORT

Name of the event : NABH Induction training
Date of the Event : 28.01.2018
Organizing Department : IQAC
Location of Event : APDCH Mini Conference Hall
Time : 10.00 am to 12.00 pm
Number of persons attended : 19
Topic : NABH Accreditation benefits
Guest Speaker : Preethi R.S , Quality Manager.

SUMMARY

- National Accreditation Board for Hospitals & Healthcare Providers (NABH) is a constituent board of Quality Council of India, set up to establish and operate accreditation standards for healthcare organizations in Hospitals.
- NABH Accreditation benefits all stake holders. Patients are the biggest beneficiary. Accreditation results in high quality standards to take care and patient safety.
- The teaching staffs working in an accredited hospital are trained and it provides continuous learning process under good working environment, strong leadership and above all ownership of clinical processes.
- To comply with these standards, the hospital will need to have a process driven approach in all aspects of hospital activities – from registration, admission, pre-surgery, peri-surgery and post-surgery protocols, discharge from the hospital to follow-up with the hospital after discharge.
- Not only the clinical teaching but the governance aspects also have to be driven based on clear and transparent policies and protocols. In a nutshell NABH aims at streamlining the entire operations of a hospital. This topic was highlighted by **Preethi R.S, Quality Manager MBA** in hospital management. The teaching staff was trained to improve the quality in clinical practice.

POST EVENT REPORT

Name of the event : Iso 9001:2015 Awareness Training
Date of the Event : 09.09.2017
Organizing Department :IQAC
Location of Event :APDCH, Mini conference hall
Time : 12.30 pm to 3.30 pm
Number of persons attended : 21
Topic : Quality management
Guest Speaker :Mr.Parivel

SUMMARY

The Iso 9001:2015 Awareness Training was held in person by **ISO consultant Mr.Parivel from Vishnu Consultancy** at Mini conference hall first floor academic block from 12.30 pm to 3.30 pm for the teaching Staff. The training and organized by **Dr.N.Bharath, Management Representative** for teaching staffs of APDCH on 9/9/2017. The program provided the knowledge and skills to implement, maintain and improve the more technical aspects of a quality management system.

Training included 3 parts:

- The first part is an introduction - it speaks about the ISO 9000 family, a short history of the quality management and two concepts from ISO 9001 - process approach and risk based thinking
- The second part is a detailed explanation of all requirements of ISO 9001:2015 - it follows the structure of the standard -context of the organization, leadership, planning, support, operation, performance evaluation and improvement
- The third is about management system auditing in general - the principles and types of management system audits, concepts like audit scope and criteria, audit teams, audit objectives, non-conformity, audit plans and reports.

By this program, the staffs can be better equipped to implement the more challenging technical aspects of a management system standard or discipline. It also has the competence to improve an existing management system by evaluating the effectiveness of its implementation.

Objectives to achieve after the training session:

- Understanding the basics of Quality Management System and ISO
- Learn briefly the ISO 9001:2015 Clauses
- Learn the benefits of implementing the Quality Management System

POST EVENT REPORT

Name of the event : Research methodology program
Date of the Event : 29 August 2017
Organizing Department : Department of Periodontics & IQAC
Location of Event : APDCH ,Mini conference hall
Time : 9.30 am to 1.30 pm
Number of persons attended : 11
Topic : Research methodology
How to write a dissertation
Guest Speaker : Dr R VenkataSubramanyam

SUMMARY

- The research methodology program was held on 29 August 2017 at Mini conference hall first floor academic block from 9.30 am to 1.30 pm for the Interns, Postgraduate students and Staff.
- The speaker for this program was **Dr R VenkataSubramanyam**, Professor and coordinator ,Department of OMFS and Diagnostic sciences, College of Dentistry, King Faisal university, Al shasa, Saudi Arabia.
- Inauguration function began with the moola manthiram to the Almighty, Welcome address was given by the **Principal Prof Dr S. Thillainayagam**. The speaker was introduced by Prof Dr.T Ramakrishnan H.O.D Department of Periodontics.
- Research methodology Lecture was held first. The various steps to be followed before starting a research and the ways to review the existing literature to substantiate the need for the research were discussed in detail. Research protocol was also discussed. Sample size estimation and statistical analysis to be done as well as the interpretation of the analysis were also discussed.
- After a tea break, the 2 lecture was on "How to write a dissertation". A model of a three year plan, which explained how to write a dissertation, was discussed. The various subheadings in a dissertation and all the other paraphernalia for eg.Tables, figures, charts were taught. The common mistakes encountered during dissertation writing were discussed. The difference between thesis and dissertation was also explained. Queries regarding result and discussion were answered.

POST EVENT REPORT

Name of the event : Assessment of evaluation process in teaching
Date of the Event : 23.06.2017
Organizing Department : IQAC
Location of Event : APDCH Mini Conference Hall
Time : 12.30 pm to 3:30 pm
Number of persons attended : 13
Guest Speaker : Dr Ramesh MDS

SUMMARY

Assessment is feedback from the student to the teaching staff about the student's learning. Evaluation uses methods and measures to judge student learning and understanding of the material for purposes of grading and reporting. Evaluation is feedback from the teaching staff to the student about the student's learning. Dr Ramesh MDS discussed on Assessment *for*, *as* and *of* learning all have a role to play in supporting and improving student learning, and must be appropriately balanced. The most important part of assessment is the interpretation and use of the information that is gleaned for its intended purpose.

- Instruction and assessment are based on clear learning goals
- Instruction and assessment are differentiated according to student learning needs
- Students are involved in the learning process (they understand the learning goal and the criteria for quality work, receive and use descriptive feedback, and take steps to adjust their performance)
- Assessment information is used to make decisions that support further learning
- Parents are well informed about their child's learning, and work with the school to help plan and provide support
- Students, families, and the general public have confidence in the system

POST EVENT REPORT

Name of the event	: Objective setting for teaching staff in their work process
Date of the Event	: 05.05.2017
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 12:30 pm to 3.30 pm
Number of persons attended	: 21
Guest Speaker	: Mrs Lavanya and Dr Devi

SUMMARY

The Training was held in person by **ISO consultant Mrs Lavanya from Creative Consultancy** at Mini conference hall first floor academic block from 12.30 pm to 3.30 pm for the teaching Staff. The training was organized by **Dr. M. Devi, Management Representative** for teaching staffs of APDCH.

Mrs Lavanya discussed about setting goals at teaching Institution which included benefits such as:

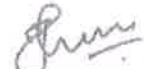

- Aligning staff's work with short-term and future goals
- Establishing guidelines and criteria for a successful teaching staff performance review
- Deepening staff engagement

All teaching staffs were made to write down their short term and long term goals related to teaching and Institution vision. Each of them was discussed. She discussed using the SMART goal framework which helped the staff to create a strong foundation for success.

POST EVENT REPORT

Name of the event	:Time management in teaching process
Date of the Event	: 11.04.2017
Organizing Department	:IQAC
Location of Event	:APDCH Mini Conference Hall
Time	:12.30 pm to 3.30 pm
Number of persons attended	:7
Topic	:Effective time management
Guest Speaker	:Mr Dwaraknath

SUMMARY

Time management is the thread running through almost all aspects of teaching - organizing the day, organizing the classroom, deciding how long and how often to teach various subjects, recording student progress, or keeping time-consuming behavior problems to a minimum.

Effective time management increases an individual's confidence and makes him self-assured. The session was conducted to ensure that teaching and learning process can flourish smoothly, resulting to positive academic achievement of the students.

Moreover, the teaching staff can keep up with the educational needs of every student, manage urgent situations immediately and avoid falling behind when unexpected situations arise.

MrDwaraknath elaborated on time management skills through various team activities among staff. This interactive session was very useful to enhance quality improvement in academic process. Dr Dinesh won prize as token of appreciation from the organizing committee for doing the team activities with full involvement.

POST EVENT REPORT

Name of the event	: Diversity in teaching Methodology
Date of the Event	: 29.03.2017
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 12.30 pm to 3:30 pm
Number of persons attended	: 22
Topic	: Teaching Learning Methods
Guest Speaker	: Dr Vijayalakshmi

SUMMARY

Diversity in teaching Methodology is an awareness program around multicultural education and taking a culturally responsive approach to teaching benefits for all students. It encourages acceptance and helps to prepare students to thrive in an exponentially diverse world.

This session was conducted for teachers and education staff to share and discuss challenges, best practices and strategies about promoting tolerance and acknowledging and celebrating diversity in the classroom. The program helped the teaching staffs to get familiar with the key challenges and concerns in acknowledging and promoting diversity. Dr Vijayalakshmi explained how to confront head-on stereotypes and personal prejudices, while developing cultural sensibilities and tolerance. Learning new teaching methods and tools that can be applied to promote diversity and tolerance in the classroom.

The staffs also exchanged their views on good practices and discussed the challenges with fellow teachers and the course trainers.

POST EVENT REPORT

Name of the event	: Fire safety measures awareness Program
Date of the Event	: 10.02.2017
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 12.30 pm to 3:30 pm
Number of persons attended	: 11
Guest Speaker	: Dr Ramya

SUMMARY

Fire safety awareness is an educational process to remind everyone in the workplace of best practices to avoid creating a fire risk, and the measures to take in the event a fire happens in the workplace. Fire safety awareness is an attitude, an attitude that incorporates the understanding of four basic areas which are: The Nature, Causes, Behavior of Fire and Safety Management.

Agenda highlighted in the program:

- A simple scientific explanation of fire
- Identification of common workplace hazards associated with fires
- Fire behavior characteristics.

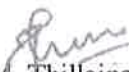

This program described at each of these elements in detailed way and concluded with identifying oxygen deprivation as the major cause of fire related deaths. **Dr Ramya** covered all the aspect of fire safety measures in her lecture and gave a demo to put off fire using fire extinguisher.

The program was successful for creating a quality enhancement to teaching staffs. Feedbacks were collected at the end of the program.

POST EVENT REPORT

Name of the event : Oral hygiene sensitization
 Date of the Event : 04.01.2017
 Organizing Department : IQAC
 Location of Event : APDCH Mini Conference Hall
 Time : 12.30 pm to 3:30 pm
 Number of persons attended : 9
 Guest Speaker : DR Rajeshwari

SUMMARY

Oral health knowledge is considered to be an essential prerequisite for health related behavior. It has been observed that oral hygiene has mostly remained as an ignored and unrealized major social problem. Majority of the people are unaware about the relationship between oral hygiene and systemic diseases or disorders. Many diseases show their first appearance through oral signs and symptoms and they remain unchanged or untreated because of this missing awareness.

This awareness program is to educate and spread knowledge of proper dental care and prevention of dental diseases through the dentists, outreach programs and relevant public health awareness measures to make a healthy individual and a healthy society.

Although dental health education is a relatively new discipline within dentistry, it is suggested that this session should be initiated in life, be delivered by trained personnel.

Dr Rajeshwari MDS , Public health dentistry department conducted a lecture and Demo session on Oral hygiene sensitization for all the teaching staffs.

POST EVENT REPORT

Name of the event	: Personal Hygiene awareness
Date of the Event	: 16.12.2016
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 12.30 pm to 3:30 pm
Number of persons attended	: 19
Topic	: Health and Hygiene Awareness
Guest Speaker	: Dr Gokul, MDS

SUMMARY

Healthy staff is a happy and productive person, and that is a goal for every organization.

Teaching staff however have a duty to look out for the safety, well-being of the patient, students and ensure they are satisfied. This in turn promotes the Institution's professional image and ultimate success, which in turn is beneficial to the teaching staff.

It begins with the good personal hygiene, cleanliness and professionalism of the staff that work for them and in particular the Front Line Staff and others dealing with the patients in the Hospital.

Health and Hygiene is however, equally important for the employees having to work together, interact with each other and often closely confined. It makes the working environment pleasant, minimized transmission of infections and diseases and ultimately contributes to the happiness and motivation of the staff.

The program was broken into 3 Module for ease of learning by **Dr GOKUL**- Basic Health Standards, Personal Hygiene and Dress Code and Institution Policies. These Modules were elaborated to all teaching staff and was very useful to them.

It was an interactive session and feedbacks were collected at the end of the program.

POST EVENT REPORT

Name of the event	: Kaizen continual improvement Training
Date of the Event	: 18.11.2016
Organizing Department	: IQAC
Location of Event	: APDCH Mini Conference Hall
Time	: 12.30 pm to 3:30 pm
Number of persons attended	: 9
Topic	: Continuous Improvement Principles
Guest Speaker	: Mrs Lavanya

SUMMARY

The Training was held in person by **ISO consultant Mrs Lavanya from Creative Consultancy** at Mini conference hall first floor academic block from 12.30 pm to 3.30 pm for the teaching Staff. The training and organized by **Dr. M.Devi, Management Representative** for teaching staffs of APDCH. The key note speaker highlighted on the following as

KAIZEN, Continuous improvement principles and practices can be applied to both academic services and administrative processes. It is an effective way to address new demands on colleges including responding to heightened expectations and reigning in rising costs. Organizations may have a cohesive approach to improvement across the institution or they may choose to implement programs at the department level.

The features of the session included that Kaizen can be made easy for faculty, administration and staff to suggest ideas for improvement. Support collaboration as opportunities for improvement are evaluated and action plans developed. Ensure forward progress with active alerts and notifications. Create a repository of institutional knowledge and capture best practices. Simplify assessing the impact of implemented improvements. Broadcast success. Give leaders insight into the health of improvement culture across the entire institution.

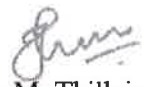

All the teaching staffs were benefited by this quality program organised by IQAC. Queries were answered. It was decided to implement Kaizen in all teaching departments.

Organizing Department : IQAC
Location of Event : APDCH Mini Conference Hall
Time : 12.30 pm to 3:30 pm
Number of persons attended : 8
Guest Speaker : Mr Ramesh

SUMMARY

The Training was held in person by ISO consultant Mr Ramesh from Creative Consultancy at Mini conference hall first floor academic block from 12.30 pm to 3.30 pm for the teaching Staff.

The training and organized by Dr.M.DEVI, Management Representative for teaching staffs of APDCH .

The program highlighted about 5S housekeeping principles of waste elimination through workplace organization. 5S stands for the meaning as sort, set in order, clean, standardize, and sustain. The cornerstone of 5S is that untidy, cluttered work areas are not productive.

The speaker elaborated those physical implications of junk getting in everybody's way and dirt compromising quality. He insisted that we all are happier in a clean, tidy environment and hence more inclined to work hard with due care and attention. 5S and good housekeeping are core elements for all quality improvement programs. It is a process to create more productive people and more productive working atmosphere through motivation, education, and practice. It involves the creation of a strong corporate culture with a productivity mindset.

Best 5 S department will be awarded during the college day was announced by Principal to impart the quality culture in our Institution.

SUMMARY

The Training was held in person by ISO consultant Mr Dwaraknath from Creative Consultancy at Mini conference hall first floor academic block from 12.30 pm to 3.30 pm for the teaching Staff.

The training and organized by Dr.M.DEVI, Management Representative for teaching staffs of APDCH . ISO quality awareness is not the understanding of the full ISO standard. The program was conducted to explore what ISO is or to create and awareness to the requirements of the standard.

ISO awareness training is intended to educate the teaching staffs on how their specific duties tie into the QMS and how their solid understanding of their responsibilities and their competency in performing their assigned duties play a critical role in the quality of the Institution.

The session was detailed by the consultant to implement the ISO standards in all teaching and non teaching department. This program imparted a quality enrichment measures to all staffs.

Organizing Department : IQAC
Location of Event : APDCH ,Mini conference hall
Time : 12.30 pm to 3.30 pm
Number of persons attended : 9
Guest Speaker : Mrs Lavanya

SUMMARY

The Training was held in person by **ISO consultant Mrs Lavanya from Creative Consultancy** at Mini conference hall first floor academic block from 12.30 pm to 3.30 pm for the teaching staff. The training was organized by **Dr.M.Devi, Management Representative** for teaching staffs of APDCH. Patients' satisfaction is a useful measure of the quality of service. An expression of satisfaction or dissatisfaction is also the patients' judgment on the quality of service in all its aspects.

Sensitization of clinical teaching staffs towards quality health service may be necessary to generate options in service provision and improve patient satisfaction. Consumers make judgment about quality of services by assessing factors they can appraise such as courtesy, responsiveness, attentiveness and perceived competence; waiting time after arrival at the health centre and duration of examination.

The speaker elaborated on the key points as follows:

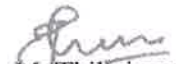

The quality of services can be classified under three categories: Structure, process and outcome. Structure denotes the attributes of the settings in which patient care occurs.. Process denotes what is actually done in giving and receiving care. Outcome refers to the effects of care in the health status of patients and populations.

Overall the program was benefited by the clinical teaching staff to improve their quality measures. Feedback were collected and documented.

POST EVENT REPORT

Name of the event : Total Quality Management awareness
Date of the Event : 06.07.2016
Organizing Department : IQAC
Location of Event : APDCH , Mini conference hall
Time : 12.30 am to 3.30 pm
Number of persons attended : 19
Topic : The purpose of quality management
Guest Speaker : Dwaraknath

SUMMARY

The Training was held in person by **ISO consultant Mr Dwaraknath from Creative Consultancy** at Mini conference hall first floor academic block from 12.30 pm to 3.30 pm for the teaching Staff.

The training and organized by **Dr.M.DEVI, Management Representative** for teaching staffs of APDCH .The program provided the knowledge and skills to implement, maintain and improve the more technical aspects of a quality management system.

The purpose of quality management is to provide patient satisfaction. With patients focus as an approach, the organization provides services meeting their expectations. TQM total quality management highlights the involvement of every clinical teaching staff, and their responsibility towards the organization to foster the student-patient -friendly work culture.

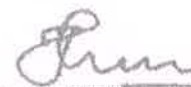

The work done by staff and the students should be appreciated and their opinions and feedback are taken into consideration. A workplace that encourages the teaching staffs to give their best, achieves continuous improvement in quality. A strategic and systematic approach is needed to achieve the organization's goals and visions.

Incorporating quality as part of the strategic plan as the core element is based in TQM. It also provides framework to the organizations-irrespective of their current level of environmental maturity-to remain committed for environmental management and its continual improvement as well. The awareness program was benefited by all the staffs who attended it, very soon its implementation will be followed in each department.
