## PROGRAM: SHAKTI –FEMALE SELF SURENESS

DATE: 30/10/2019

### POST EVENT REPORT

The empowerment and autonomy of women and the improvement of their political, social, economic and health status is a highly important end in itself. In addition, it is essential for the achievement of sustainable development. In all parts of the world, women are facing threats to their lives, health and well-being. To create awareness and to encourage women, Adhiparasakthi dental college and hospital conducts women empowerment program regularly. The guest Speaker, Dr.K.C Deepa delivered an excellent speech on Female child abuse, protection of female children and their rights. It must be the responsibility of the all health professionals to protect children who are being abused or neglected. She explained that dental professionals are in a perfect stand to identify child abuse as they are the first professional to be seen immediately after an abuse for routine dental check up. She highlighted that the dentists have the potential to reduce the prevalence of female child abuse if prevention strategies are being taught to them and thus seminars, workshops and conferences must be attended by the dental professionals to keep themselves updated. Around 300 participants attended the programme.

## PROGRAM: I AM STRONGER THAN YOU THINK

DATE: 04.02.2020

### POST EVENT REPORT

In India, the incidence of cancer is increasing rapidly; therefore, it is important to step up cancer literacy and knowledge amongst the population. Early detection is essential in its management and treatment. Due to ignorance, fear, and social stigma many women present with stage III or IV cancer which requires surgery and extensive treatment. Oral cancer is one of the preventable cancers occurring in women. Therefore, making people aware of the dangers of chewing tobacco and smoking is of great importance. As part of World Cancer Day, our institute organized a program, "I AM STRONGER THAN YOU THINK". Pamphlets (both English and Tamil) were distributed to female vendors in the nearby area. They were also educated in understanding of cancer risk factors and make a personal commitment to reduce cancer risks. They were also encouraged to share their knowledge with others. 322 students and staffs from Adhiparasakthi Dental College and Hospital were benefited by this program.

## PROGRAM: GENDER EQUALITY IN THE FIELD OF DENTISTRY

DATE:10-10-2018

### POST EVENT REPORT

Gender equality is, first and foremost, a human right. The gender change in student, staff, and leadership is gradually moving toward reorienting dentistry from its "focus on diagnosis and treatment to a 'more humanistic' approach to healthcare, including greater emphasis on primary prevention and health promotion. The event organized on gender equality at APDCH was presided over by Thirumathi Lakshmi Ammal and attended by 292 participants. It carried the motivating message that Women's equitable representation and special contributions in the field of dentistry should remain intact. The gender/generation gap—women as change agents for organizational change, Work-related issues—time management and leadership in the office was discussed by Thirumathi Lakshmi amma. The clinical relevance of gender and oral health as well as keeping women fit was emphasized by Dr. Shamala Ravikumar, HOD, Department of Oral Pathology. She also stressed on encouraging the advancement of women in dentistry: academic and research careers and in professional societies.

## PROGRAM: "TIME IS NOW" - WOMEN ROLE IN INNOVATING THE FUTURE

DATE:14-03-2019

### POST EVENT REPORT

While innovation, entrepreneurship, and science and technology activities are today increasingly being dominated by women in India, there still exist significant gaps before women can achieve parity with men. The role of gender is gaining increasing importance in all fields. In addition to being a social inequality that needs correction, the lower participation of women in innovation and entrepreneurship has larger socio-economic implications. Increasing the number of women entrepreneurs will therefore have a direct positive impact at large. Our honourable and beloved Correspondent Dr.T. Ramesh presided over the event and addressed the importance of lessening the gender gap and promoting female entrepreneurship which is essential for economic development. It was discussed that efforts should be made to overcome such barriers so that women from all classes may contribute to the fullest. A token of appreciation was presented to Dr.T. Ramesh by our respected Principal, Dr.S.Thillainayagam. 162 staffs & students from Adhiparasakthi Dental College and Hospital were benefited by this program

## PROGRAM: ADMINISTRATIVE AND ACADEMIC ROLE OF WOMEN IN HEALTH EDUCATION SECTOR

**DATE: 13-03-2018**

### POST EVENT REPORT

The need for strong leadership and increased diversity is a prominent issue in today's health services workforce. Though, Women represent an overwhelming majority of the healthcare workforce, they are significantly underrepresented in leadership positions, particularly at the executive and board levels. To stress on this issue, an awareness programme was organized at Platinum Jubilee Auditorium, APDCH. The chief guest was Dr.Geethalakshmi, Vice-chancellor, TNMGRMU. She gave a motivational speech on role of Women in leadership and responsibility to pay it forward by identifying the next generation of women leaders. The speech concluded with the message that women are uniquely positioned to leverage traits such as compassion, transparency, and the ability to foster teamwork to lead organizations into the next phase of contemporary healthcare delivery. It was indeed an encouraging and interactive program involving about 370 participants. Small activities were assigned and the students actively participated.

## PROGRAM: WOMEN EMPOWERMENT; THE NEED OF THE HOUR

DATE: 27/04/2018

### POST EVENT REPORT

The discrimination against women and girls - including gender-based violence, economic discrimination, reproductive health inequities, and harmful traditional practices - remains the most pervasive and persistent form of inequality. Equality between men and women exists when both sexes are able to share equally in the distribution of power and influence; have equal opportunities for financial independence through work or through setting up businesses; enjoy equal access to education and the opportunity to develop personal ambitions. Education is one of the most important means of empowering women with the knowledge, skills and self-confidence. These were emphasized by Mrs. Lakshmiammal in her brilliant and motivating speech regarding women empowerment. About 495 participants attended the event. The program enlightened the gathering.
