COUNSELLING ROOM

Our college has taken an initiative to establish a counselling cell to address the mental health of staff members and students. A Psychologist regularly visits the college, provides orientation and identifies students possibly in need of Counselling. The students and staff members are free to meet the counsellor with regards to their personal issues. Once their problem areas are identified, appropriate intervention and the therapeutic techniques are employed for helping students. They are also scheduled for follow up weekly to report on changes in the issues and given guidance for the same.
